1 GENERAL INFORMATION

GENERAL INFORMATION

THE COLLEGE

Queens, a church-related liberal arts college for women, is located in Charlotte, North Carolina. Its programs are accredited by the Southern Association of Schools and Colleges and the National Association of Schools of Music.

History

Queens was founded in 1857 as the Charlotte Female Institute, then located on College Street near the center of the city. For five years after 1891 it was called the Seminary for Girls, and upon affiliation with the Presbyterian Synod of North Carolina in 1896, was known as the Presbyterian College for Women. In 1912, anticipating the move to its present campus in the Myers Park residential area in 1914, it became Queens College.

That name revived pre-Revolutionary traditions, for in 1771 a group of North Carolina colonists sought a royal charter for Queens College to be located in the town of Charlotte which was named for the British queen, Charlotte of Mecklenburg. George III refused the petition, doubting the wisdom of creating an institution to perpetuate non-conformist views favored by the Scotch-Irish Presbyterians who had settled in the Piedmont. A school was chartered in 1773, however, under the unusual title of Queens Museum. During the Revolution it sympathized with the colonial cause and became known as the Liberty Hall Academy. The academy's post-Revolutionary history is sketchy, but in 1821 the Male and Female Academy Corporation was chartered to operate the Liberty Male Academy, the precursor of Davidson College, and the Charlotte Female Academy, the precursor of the Charlotte Female Institute.

In 1930, Queens became related to the Presbyterian Synod of South Carolina through a merger with Chicora College, Columbia, S. C. (formerly in Greenville). Since Chicora itself had earlier merged with the College for Women, Columbia, Queens continues the tradition of two South Carolina women's colleges. With the creation of the Synod of the Southeast in 1973, Queens' official church relationship was extended to include Presbyterians in Georgia as well as those in the Carolinas.

The Board of Trustees holds title to the property of the college and is responsible for Queens' total program. The 30-member board—composed of business, professional, religious, and alumnae leaders—is elected by the Synod of North Carolina (10 members), the Synod of the Southeast (8), trustees (8), and the Queens College Alumnae Association (4).

Purpose

As a small church-related, liberal arts, women's college located in a growing metropolitan community, Queens is committed to certain specific purposes and offers some distinctive educational opportunities.

Queens understands the liberally educated person to be one who possesses the skills of learning, thought, communication, and judgment; seeks the rewards of self-discipline in a free society; and is engaged in a life-long pursuit of personal, social, cultural, and religious goals.

The Queens program seeks to develop these skills in a free educational and social context which supports personal discipline within a community characterized by scholarship and public

service. The flexible course of study requires each student to develop a personal program to fulfill her aspirations, while at the same time assuring her contact with the major areas of the liberal arts curriculum, and requiring knowledge of one area in sufficient depth to provide confidence in its methods and literature. The baccalaureate degree recognizes the accomplishments of collegiate study, but it also distinguishes its holder as one of whom much is expected.

By pursuing its historic role, Queens serves the need of American higher education for specialized colleges which meet varied student preferences, particularly in the preparation of women for the full opportunities open to them in American society. Its students enjoy the benefits inherent in a college where opportunities for scholarship and leadership training are concentrated upon women. Queens' academic and cocurricular programs seek to develop the potential abilities of each student, not merely for her personal satisfaction but also for the benefit of society.

Queens claims a religious tradition which supports free scholarship and the development of the human intellect as necessary and essential religious obligations. It fosters Christian ideals by providing voluntary programs for worship, service, and nurture. It seeks students from diverse religious backgrounds and encourages voluntary personal religious commitment and responsible participation in denominational life.

As a small college Queens provides an environment in which the individual student can claim considerable personal attention, not merely in smaller classes, but also through individualized programs of study and opportunities to assume leadership responsibilities in curricular and cocurricular activities. The result is greater personal growth and the development of lifelong friendships.

Queens is located in a growing metropolitan community in which the college and the city enrich and serve each other. Charlotte's educational and cultural wealth multiplies the human and physical resources available to Queens students, and the city furnishes a ready-made laboratory for social sciences and public service.

Cooperative Programs

While stressing its unique purposes, Queens participates in several inter-institutional associations which enlarge and diversify the opportunities available to its students.

Through the Charlotte Area Educational Consortium, composed of ten public and private institutions, Queens engages in student and faculty exchange programs which permit maximum use of the community's educational resources.

The college also has a junior year exchange program with Davidson College; and, during the January interim term, offers exchange opportunities with other colleges operating on the 4-1-4 academic calendar.

As a member of the North Carolina Educational Computing Service, Queens provides its students and faculty with the computer resources of the Triangle Universities Computer Center by direct teletype connection.

The Piedmont University Center, with which Queens is affiliated, coordinates the activities of twenty colleges and universities in North Carolina in providing visiting scholars, support for faculty research, and audio-visual resources.

In addition Queens offers special exchange programs with particular institutions including the Washington Semester at the American University for a study of American National Government in Action; the North Carolina Legislative Internship program at North Carolina State University for study of State Government; the Gulf Coast Research Laboratory in Ocean Springs, Mississippi; and junior year international study programs through The Experiment in International Living and The Association of United Colleges for Foreign Study and Exchange.

THE CAMPUS

Queens College is located on a large wooded campus in the Myers Park area of Charlotte and is bounded by Selwyn, Radcliffe, and Wellesley Avenues. The Georgian buildings constructed in 1914 when the college was moved to this site have been extensively remodeled and continue in use. Their architectural motif of red brick with white trim has been incorporated in the more modern buildings.

Burwell Hall Burwell Hall, 1914, is the focal point of the campus facing Selwyn Avenue. The building, in addition to housing the administrative offices, has parlors which serve as a spacious reception area for guests and social events. Robert Burwell served as president of the Charlotte Female Institute from 1857 to 1872; and his wife, Margaret Anna Burwell, was teacher and principal.

Everett Library Everett Library, 1960, is the center of the campus facing Radcliffe Avenue. It honors Herschel Hill Everett and his wife, Cornelia Nisbet Everett. Mr. Everett served as acting president, 1953-1954; and chairman of the board, 1952-1967. The library houses the present collection of 81,000 volumes and has a potential capacity for 200,000. It is an open stack library with conference rooms, lounges, student and faculty carrels, and microfilm equipment. The large mosaic tile mural on the facade depicts the areas of knowledge available within the liberal arts college.

Belk Chapel Belk Chapel, 1950, was a gift made to Queens by the families and associates of William Henry Belk and Dr. John M. Belk, in their honor. Greek revival in architecture, it is equipped with a 39 rank organ, seats 750, and is used for weekly chapel services.

E. H. Little Fine Arts Center The E. H. Little Fine Arts Center, 1966, contains the Suzanne Trezevant Little Recital Hall, the Charles A. Dana Auditorium, studios, practice rooms, and classrooms for music and drama. Convocations, concerts, recitals, plays, and lectures are scheduled in the auditorium, which seats 1,000. Major donors of this facility were E. H. Little and Charles A. Dana.

Dana Classroom Building The Dana Classroom Building, 1961, honors Charles A. Dana, a generous benefactor of Queens College, and contains a large lecture hall, a language laboratory, classrooms, and seminar offices designed for small, informal classes.

Walker Science Building The Walker Science Building, 1966, with its laboratories, classrooms, and research facilities for biology, chemistry, and physics, honors Dr. and Mrs. Edwin R. Walker. He is Queens' former president and chancellor.

McEwen Hall McEwen Hall, 1914, was renovated in 1967 to provide 20 spacious classrooms and a number of faculty offices. It is named for Dr. Mildred Morse McEwen, alumna and professor emeritus of chemistry.

Morrison Hall Morrison Hall, 1927, is named for its donor, Mrs. Cameron Morrison, and includes a large dining hall, kitchen, auxiliary rooms, and dormitory space.

Jernigan Student Center Jernigan Student Center, 1914, was completely renovated in 1963. It comprises the post office, bookstore, snack shop, lounges, and offices for student government and student publications. Charlton Coney Jernigan was president of Queens from 1951 to 1953.

Ovens Physical Education Building Ovens Physical Education Building, 1954, includes a large gymnasium, classrooms, a dance studio, and an Olympic-size swimming pool. David Ovens, business executive and merchant, was a Queens trustee and benefactor.

Carol Hall Carol Hall, 1957, was the gift of Irwin Belk, Queens trustee, and is named in honor of his wife, Carol Grotnes Belk. Located on Queens Road, this handsome private home was remodeled and now houses the art department and exhibition galleries. Two art annexes are adjacent to Carol Hall.

Tillett, Blair, Stultz Buildings Three other buildings are named respectively for Dr. Elizabeth H. Blair, former dean of instruction; Mr. and Mrs. W. Z. Stultz, donors; and Miss Laura A. Tillett, professor emeritus of English.

These buildings are used for administrative and instructional purposes.

Irwin-McKay Infirmary

The Irwin-McKay Infirmary, 1958, was the gift of Thomas M. Belk and his wife, Katherine McKay Belk, honoring Dr. John R. Irwin, Dr. Hamilton W. McKay, and Dr. Henderson Irwin. It provides 12 hospital beds, rooms for consultations and treatment, and quarters for resident nurses.

Residence Halls

Long and Watkins, 1914, are named for Miss Lily W. Long, who served the college for half a century and was herself president from 1891 to 1899; and for Miss Mildred C. Watkins, member of the faculty from 1895 to 1909.

Belk, 1954, honors the late Mrs. William Henry Belk, alumna, trustee, and benefactor; it was a gift to Queens from Mrs. Belk's sons and daughter.

Harris, 1960, honors James J. Harris, vice-chairman of the Board of Trustees, and his wife, Angelia Morrison Harris.

Wallace, 1962, honors Mr. and Mrs. J. M. Wallace and family. Mrs. Wallace was an alumna, and J. Mason Wallace, Jr., is a college trustee.

Albright, 1964, is named in honor of Miss Thelma Albright, formerly dean of students, and a long time faculty member at Queens.

Barnhardt, 1965, honors Mr. and Mrs. William H. Barnhardt; Mr. Barnhardt is a member of the Board of Trustees.

Career and Personal Counseling Center

The center was established by the Synod of North Carolina in 1972-73. It serves the piedmont and western areas of North Carolina and has facilities providing for personal and vocational counseling, and testing. All services are available to Queens students.

Other Buildings

The campus includes three duplex lodges for sororities, a power plant, and maintenance shops. Several college residences are adjacent to the campus.

Lake Norman Campus

Queens also owns 231 acres of shore front property on Lake Norman, a popular recreational area 25 miles north of the campus. This property, the gift of Mr. and Mrs. Irwin Belk, has a shore line of three-fourths of a mile; and while currently undeveloped, it is used for camping and picnics and is available for instruction in physical education and biology. The site is easily accessible from Interstate Highway 77, and will increase in use under current plans for its development.

STUDENT LIFE

Queens College is aware that a major part of a student's education takes place outside the classroom in day-to-day living experiences and campus activities. Through group participation and interaction the student comes to know herself as an individual, to realize her potential, and to be a creative member of the college community. To stimulate this process the college seeks a diversified student body representing varied religious, racial, economic, and geographic backgrounds and interests. It also encourages student initiative and responsibility through student government, the honor system, organizations, activities, and social and special events.

Student Government

Queens considers experience in self-government essential to the development of student freedom and responsibility. The stated purpose of the Student Government Association is: to foster self-government, to administer rules of government, to enact legislation governing student life, and to carry out the program of student activities.

Student Government Association operates as a Senate, with representation from the day students and residence halls as well as from the four classes.

Every student is a member of the Student Government Association and is expected to uphold the regulations and standards set by this governing body and the Honor Code.

Honor Code

The Honor Code is one of the cherished possessions of Queens College and is of fundamental importance in the educational experience. The Honor Code regulates all phases of college life and is binding on all members of the community. The code is based on three fundamental principles: Queens students are truthful at all times; respect the property of others; and are honest in tests, examinations, term papers, and all other academic assignments. When a student is admitted to the college, she signs the honor pledge and assumes the responsibilities of the honor system under which she enjoys the freedom and privilege of living in a community governed by mutual trust and respect. Infractions of the Honor Code are dealt with by the Honor Council.

Religious Life

Queens College is related to the Presbyterian Church in the United States and seeks to develop a sense of religious concern as a vital part of personal growth. There are weekly chapel services, vesper programs, dormitory sharing groups, and a fellowship group. Queens Christian Association sponsors Faculty Firesides which afford students and faculty an opportunity to discuss informally vital issues and common concerns.

Activities

Activities are an integral part of campus life at Queens. Major campus organizations and the residence halls sponsor activities and social programs. They often combine their activities for a full weekend of entertainment. Major social events are held occasionally off campus and frequently on campus in the students' favorite gathering places—The Pit and The Web. Long Hall is a guest house for campus visitors including male guests who come for special occasions.

Several main events highlight the calendar of activities, and each event is anticipated by the entire student body. The Student Government Association sponsors an annual symposium centered on a current topic of vital interest. The Day Student Council promotes an annual auction to provide a scholarship; Queens

Christian Association and Resident Student Council plan a Christmas worship service based on the traditional Moravian Love Feast; Dads Weekend is sponsored by the sophomore class; Moms Weekend is sponsored by the freshman class; and May Day is the year's biggest social weekend.

Five national sororities add their activities to the social life of the college. Sorority members live in the residence halls, but their meetings and social events are held in the sorority lodges which are complete with a kitchen and a large living room with a fireplace. Approximately half of the students belong to the sororities which are Alpha Delta Pi, Alpha Gamma Delta, Chi Omega, Kappa Delta, and Phi Mu.

In athletics, teams representing the residence halls and teams of day students compete in intramural events including swimming, volleyball, softball, and basketball. Queens students compete in extramural games and events with teams from neighboring colleges. Several times a year members of the faculty, staff, and administration play against the students in volleyball and softball.

Honors and Awards

Students who exhibit outstanding qualities of leadership and scholarship receive recognition through a number of honors and special awards. In addition to membership in the campus honorary organizations, there are the special scholastic honors of Dean's List, College Marshals, and graduation with honors. Each year several outstanding seniors are named to *Who's Who Among Students in American Universities and Colleges*. One member of each graduating class receives the Algernon Sydney Sullivan Award in recognition of her service to others. Numerous campus organizations give awards at the annual Awards Day convocation.

Placement Service

The placement office maintains general information on jobs and careers as well as specific information from numerous companies and school systems. The placement staff assists students in finding full-time and summer employment. All students are urged to set up permanent placement files before they graduate so that records and recommendations may be sent from the college whenever needed.

Lectures, Concerts, and Special Events

Lectures, concerts, recitals, films, exhibits, and special events enrich the program at Queens. Guest speakers often spend several days on campus for formal lectures, class visits, and informal meetings with students.

2 ADMISSIONS

ADMISSIONS

Queens seeks students from different cultural, economic, racial, religious, and geographical backgrounds. The college encourages qualified high school graduates to apply for admission. In evaluating an application, the Committee on Student Qualifications considers the applicant's high school record, especially the quality and amount of college preparatory work; College Entrance Examination Board test scores; recommendations from high school counselors concerning the applicant's character and personality; and the student's own stated objectives. An interview with an admissions counselor or an alumnae representative is suggested for all applicants, and a personal visit to the campus is advised when convenient.

Queens Representatives

The director of admissions is Queens' official representative to prospective students. All communications regarding applications and admission should be with the Director of Admissions, Queens College, Charlotte, North Carolina 28207 (704-332-7121).

To interview prospective applicants and their parents, members of Queens admissions staff annually visit communities from which students regularly apply. A student wishing to learn more about Queens should consult a high school counselor about scheduling a visit from a Queens admissions counselor, contact a local Queens alumnae representative (listed in the Alumnae Section of this catalogue), or write directly to the admissions office.

Campus Visits

Prospective students and their parents are invited to visit Queens. They are welcome at any time, but will find visits more rewarding if scheduled when the administrative offices are open, and if appointments are made in advance. The admissions office is open from 9:00 a.m. to 4:30 p.m. on weekdays throughout the year, and until noon on Saturdays from September through May. From June through August the office is open on Saturdays by appointment.

Queens schedules each year a series of special campus programs for prospective students. Interested applicants should write for the details of these programs.

Requirements for Admission

Students applying to Queens should pursue a college preparatory program in high school. Four years of English, two years of mathematics, two years of a foreign language, two years of social science, and one year of laboratory science are considered essential preparation.

All applicants must submit the results of the College Entrance Examination Board's (CEEB) Scholastic Aptitude Test (SAT), taken during either their junior or senior years. Those who have taken Spanish, French, or German in secondary school and wish to continue study in that particular language at Queens should take a Language Achievement Test in the senior year for purposes of placement.

SAT application forms and information about schedules for CEEB tests may be obtained from secondary school counselors or by writing College Entrance Examination Board, Box 592, Princeton, N. J., 08540; 625 Colfax Street, Evanston, Illinois 60201; or Box 1025, Berkeley, California 94701.

Procedures

While there are no deadlines for application, prospective students should apply for admission as soon as possible, preferably late in the junior year or early in the senior year. Application forms may be obtained from the admissions office and should be submitted with the $15 non-refundable application fee.

The applicant must ask the College Entrance Examination Board to forward to Queens the SAT and Language Achievement Test scores. Upon receipt of the completed application, Queens requests the student's transcript and recommendation from the secondary school.

The admissions office will act on an application upon receipt of all the credentials: application form with fee, transcript, test scores, and secondary school recommendations. The enrollment of admitted students is contingent upon receipt of further information demonstrating satisfactory health, successful completion of work in progress, and a willingness to conform to the Queens Honor Code.

Freshmen and transfer students may apply for admission at the beginning of any of Queens' three terms which begin in early September, January, and February.

Advanced Placement

Applicants who have completed college level work in secondary school should take the appropriate Advanced Placement Test administered by the CEEB. Queens grants advanced placement and course credit automatically if the student scores either four or five on such tests. Advanced placement is also granted for a score of three, but decisions on the amount of credit to be awarded, if any, are made by the dean of the college in consultation with the department concerned. Advanced placement in English is given for literature courses only.

Advanced placement in biology, chemistry, foreign language, and music is determined by acceptable achievement on examinations taken at Queens at the beginning of the fall term.

Exemption from the basic freshman course in composition depends upon acceptable achievement in an examination administered by the college during orientation week. Applicants seeking advanced placement, credit, or exemption are responsible for submitting a written request to the assistant dean of the college for action before their first term registration at Queens.

Credit by Examination

Queens College will award college credit and advanced placement to students who score satisfactorily on approved subject-level tests of the College Level Examination Program (CLEP). Credit will not be granted if it duplicates credit already earned. Neither grades nor quality points will be awarded, nor may CLEP credits satisfy the final 27 hours required for graduation from Queens. A recording fee of $10 for the first course and $5 for each additional course accepted will be assessed.

Candidates who desire further information about CLEP should write to the director of admissions.

Accelerated Admission

Mature students with superior records may apply for admission after three years of high school. They must submit SAT scores, transcripts, and recommendations and have a personal interview with a Queens representative. These students will be admitted only in the fall term.

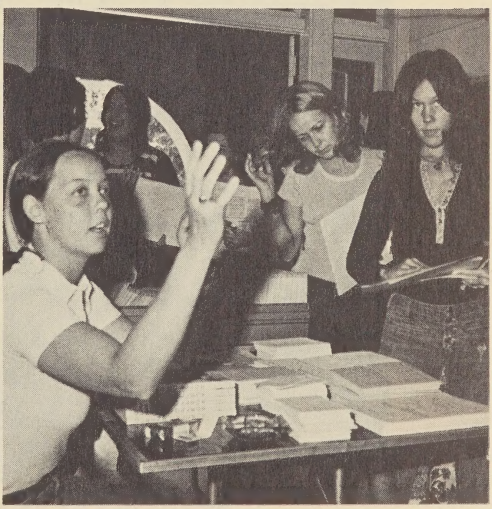
Transfers from Other Colleges

Queens welcomes transfer applicants with good scholastic records from other institutions, especially junior and community colleges. Transfer students follow the same application procedure outlined for incoming freshmen. In addition they must

present transcripts for all college work and a statement of good standing from the colleges attended. For courses completed at other institutions, credit will be transferred if the applicant has made a grade of C or higher. Credits over 10 years old must be submitted for approval to the Student Qualifications Committee following the successful completion of six credit hours at Queens.

Readmission of Former Students

A degree candidate who has withdrawn in good standing and wishes to return to Queens must apply for readmission by submitting a new application to the director of admissions, as well as transcripts of all work undertaken at other institutions.



Special Students

Queens admits special students who are not candidates for degrees but wish to enroll in credit courses. Special students should consult with the director of admissions. Generally, special students who do not hold a bachelor's degree are limited to a cumulative total enrollment of 15 credit hours. Beyond this limit, to continue at Queens they apply for acceptance as degree candidates.

Enrollment is contingent upon the filing of a Special Student Application and the availability of space in the requested course. Special students must maintain a C average to continue their enrollment.

Persons interested in teacher certification who have already earned a bachelor's degree are admitted as special students. They should consult with the director of admissions regarding admission and are expected to complete twelve credits successfully at Queens before undertaking student teaching.

Dual Enrollment

Men and women students in their junior or senior years in the Charlotte-Mecklenburg area secondary schools may register for courses at Queens during any term if recommended by their school officials. They will be classified as special students, and all credit earned will be applied toward degree requirements for those who later enroll at Queens.

Financial Aid

Queens provides financial aid to worthy applicants through several programs, some based on financial need and others on merit. These programs are underwritten by government as well as college funds, and are described in detail in the financial section of this catalogue. No student who desires to attend Queens and is otherwise qualified should fail to apply because of financial reasons.

Orientation

All new students entering in the fall are required to attend an orientation program which includes meetings and informal conferences with college officers, faculty advisors, and upperclassmen. Orientation activities are designed to provide a helpful introduction to Queens academic program, social customs, and the city of Charlotte.

Release of Transcripts

The college reserves the right to release copies of transcripts to secondary schools for the purpose of research.

3 ACADEMIC PROGRAM

THE ACADEMIC PROGRAM

DEGREE REQUIREMENTS

Degree Programs

Queens College offers three degree programs: the bachelor of arts, the bachelor of science, and the bachelor of music. Majors within the bachelor of arts include American studies, art, biochemistry, biology, chemistry, early childhood education, economics/business, English, European studies, French, German, history, Latin-American studies, mathematics, music, philosophy, political science, psychology, religion, Russian studies, sociology, and Spanish.

Majors within the bachelor of science include biochemistry, biology, chemistry, medical technology, nursing, and radiologic technology.

The bachelor of music degree offers majors in applied music (piano, voice, organ, strings, or other instruments), in music education, and in piano pedagogy.

Degree Requirements

Required for a degree is a minimum of 114 credit hours in academic courses with a cumulative quality point average of 1.000 in all work taken at Queens College and in all work in the chosen field of concentration. Also required is a minimum of four non-academic credit hours in physical education.* At least 36 credit hours must be in courses of the 300 level or higher. Every degree candidate must complete at least 27 hours of her academic program at Queens College and must spend her last year at Queens College or in a Queens approved program.

Though the college makes every effort to counsel the student in planning a program and selecting courses of study, the student is finally responsible for fulfilling all requirements for a degree.

Educational Program

The educational program leading to a degree is composed of four interrelated parts: a major program; a program of distributed requirements; a program of elective hours; and a program of physical education.

---

*Students earning the bachelor of science degree in nursing are required to complete two non-academic credit hours in physical education.

Major Program

The purpose of a major is twofold: to give the student the opportunity to go far enough into a field to achieve some mastery of it; and to enable her to acquire knowledge, skills, and attitudes which may help make her effective in her vocation. Working with her advisor, the student will plan her major in one of three categories: departmental, interdepartmental, or self-structured.

The self-structured major is planned by the student in consultation with a major advisor and an advisory committee of two other faculty members from the principal disciplines which constitute the student's fields of interest. If a student is seeking a self-structured major in intermediate education, she will work closely with an advisor in her specialty area as well as with one in the education department. The individually structured major might include courses in two or more departments, work taken at other colleges, and internships off campus. It offers the student an opportunity to tailor an academic program to meet particular intellectual interests and vocational objectives. The student is expected to show independence and responsibility in planning such a major program.

The self-structured major shall consist of a minimum of 30 hours in the major with a minimum of 12 hours at the 300-400 level in the one primary department of the major. Self-structured major programs must include Interdisciplinary Senior Thesis 450, unless major is in intermediate education. Self-structured majors in intermediate education must include at least 12 hours in 300-400 level courses in at least one academic area other than education.

Bachelor of Arts

A major for the bachelor of arts degree shall consist of no fewer than 30 credit hours. No more than 40 hours in the major department shall be required for a major. A student may, however, at her own initiative take more than 40 hours in her major department. Specific requirements in areas of the major are stated in each department heading in the course descriptions.

Bachelor of Science

A major for the bachelor of science degree in the areas of biology, biological chemistry, or chemistry shall consist of no fewer than 32 credit hours. Language proficiency at the intermediate level is also required for the bachelor of science degree in these

areas. Specific requirements for each of the major programs are stated in the department heading in the course descriptions.

Bachelor of Science (Nursing)

The degree Bachelor of Science in Nursing will be granted to registered nurses upon completion of 57 credit hours of approved college work. Degree candidates must have graduated from a fully accredited Diploma School of Nursing or from an Associate Degree in Nursing program. Normally 57 credit hours (a maximum of 66 credit hours) and 57 quality points are assigned to courses carried in a school of nursing; these constitute a major. Of these 57 hours, 36 shall be considered equivalent to 300-400 level courses. All Queens College academic requirements for a degree must be met, and candidates must complete two non-academic credit hours in physical education with a grade of P (passing). Note requirements on pages 31 and 154 under Nursing Programs.

Bachelor of Science (Medical Technology)

The degree Bachelor of Science in Medical Technology will be granted upon successful completion of 90 credit hours of approved college work and certification in medical laboratory technology from any hospital accredited by the American Society of Clinical Pathology and approved by the college. In order to enter an A.S.C.P. approved school, minimum requirements must be met: at least 90 credit hours of college work giving a comprehensive general education and including English, social sciences, art, and humanities. In addition the minimum science and mathematics requirements are: 16 credit hours of chemistry, 16 credit hours of biology, and three credit hours of mathematics. All Queens College degree requirements must be met. A minimum of 36 hours in courses numbered 300 and above is required. Twenty-four credit hours and 24 quality points are assigned to courses carried in the school of medical technology; these constitute the major. All of these 24 credit hours shall be considered equivalent to 300-400 level courses.

Bachelor of Science (Radiologic Technology)

The degree Bachelor of Science in Radiologic Technology will be granted upon successful completion of 90 credit hours of approved college work and certification in Radiologic Technology from any hospital school accredited by the American Registry of Radiologic Technologists and approved by the college.

All Queens College degree requirements must be met. A minimum of 36 hours in courses numbered 300 and above is required. Twenty-four credit hours and 24 quality points are assigned to professional courses carried in the school of radiologic technology; these constitute the major. All of these 24 credit hours shall be considered equivalent to 300-400 level courses. A student may not be admitted to candidacy for this degree until certified by the American Registry of Radiologic Technologists.

Bachelor of Music

In the bachelor of music program, the major consists of no less than 73 hours in music under the applied music major; no less than 70 hours in music under the piano pedagogy major; under the music education major at least 50 credit hours are in music courses with no less than 14 credit hours of work in an applied major performance area and four credit hours of work in an applied minor performance area.

Pre-professional Programs

In combination with individual major programs available at Queens, students may elect to structure a program of study which leads to pre-professional preparation in various fields. For instance, courses of study are available to students wishing to pursue professions in the areas of dentistry, law, medicine, music therapy, nursing, physical therapy, social work, and teaching.

Medicine, Dentistry, and Physical Therapy

It is recognized by leading medical educators that a genuine liberal arts curriculum provides the most suitable undergraduate premedical, predental, pre-physical therapy, and pre-veterinary medicine background. Completion of the courses required of all students at Queens College provides desired breadth of training and intellectual skills.

It may be helpful for these students to acquaint themselves with the specific requirements for the schools to which they expect to apply for admission.

Full information concerning any aspect of these programs may be obtained from the premedical advisor, Dr. Jack Fehon.

Law

Queens College affords students an opportunity to develop a pre-law course of study, although it does not offer a pre-law major. Law schools do not require nor recommend specific courses or majors. They do recommend, however, that students examine a variety of subjects or ideas that would lead to an

understanding of the broad political, economic, social, and cultural forces which affect our body of laws and the society which it orders. Law schools also recommend that students work toward developing their skills of analysis and communication. While the majority of students admitted to law schools have selected political science, history, English, or economics as undergraduate majors, virtually all undergraduate majors have been represented.

Admission requirements for law school generally include the Law School Admission Test. Applications for this test are available in the registrar's office, and students should plan to take the exam early in their senior year. Scores from this test, undergraduate quality point average, and other factors are parts of the law school admissions process. Students should check to see what information is required by the law school or schools that interest them.

For further details or counseling, students should contact Dr. Ray Rimkus, pre-law advisor, as early in their courses of study as possible.

Music Therapy

Students who are interested in pursuing a career in music therapy may fulfill at Queens the basic music, psychology, sociology, and general education requirements for becoming a registered therapist. In addition to the courses in these areas, the National Association for Music Therapy requires that registered therapists obtain a minimum of 10 credit hours in music therapy courses and complete a supervised internship in music therapy. Queens students may elect to complete the music therapy requirements through an affiliated program with the University of Georgia, or they may choose to complete the requirements for a music major at Queens and enroll in music therapy courses after graduation.

The affiliated program with the University of Georgia is described on page 126. Students who plan to complete the music therapy requirements at a different institution are advised to check the requirements of the school they will be attending and to plan their programs at Queens accordingly.

For assistance in planning study in this area, students may contact Dr. George Stegner or Dean Nancy Eagle.

Nursing Queens offers three programs to students interested in nursing. A cooperative program with the Presbyterian Hospital School of Nursing enables students to take courses at Queens while working to become a registered nurse through the course of study provided by the hospital. Details of this program are given on page 154. A second program exists for registered nurses who would like to complete requirements for the B.S. in Nursing degree. This program is described on pages 28 and 154. As a third possibility, students may elect a pre-nursing curriculum upon enrolling at Queens.

The two-year pre-nursing curriculum is offered to undergraduates who wish to receive liberal arts training as well as a baccalaureate degree in nursing. This program of study enables students to transfer to an institution offering a nursing degree. Under this program students interested in nursing but uncertain about their commitment or ability in the field can begin productive college work before making a final decision about professional training.

The flexible two-year curriculum includes courses required at the particular school of nursing to which the student will transfer. Queens maintains a file of college and university catalogues which list the requirements of various nursing programs. Normally the pre-nursing student develops a freshman and sophomore schedule from the following courses:

Natural Sciences and Mathematics: Biology 103, 206, 111, 112, 120; Chemistry 101, 102, 303; Mathematics 105 or 112.

Social Sciences: Psychology (two courses) 201, 303, 304, 309, 318; Sociology (two courses) 203, 204, 302, 308, 316, 318.

Humanities: English 101 or 105; literature, history, religion.

Students interested in this pre-nursing program should submit a regular admissions application to Queens' director of admissions, and should anticipate transferring after their sophomore year to the nursing school from which they wish to graduate.

For additional information and counseling about the nursing programs, students should consult Dr. Jack Fehon or Dr. John R. Diebolt.

Social Work

A sequence of courses designed to better prepare students wishing to enter social work or graduate study in this field is offered by the sociology department. Students may combine studies in the area of social work with any of the majors regularly offered by the college. Details of these courses are given on pages 152-153.

Additional information may be obtained from the chairman of the sociology department, Dr. Clyda Rent.

Teacher Education

A teacher's certificate, either at the early childhood, intermediate, or secondary level, may be secured with the bachelor of arts or bachelor of science degree. Teacher certification also is possible under the bachelor of music program. The bachelor of music degree in music education is described on page 29. Details of the major in early childhood education and of teacher certification programs at the intermediate and secondary levels are given on page 67 and in the departmental bulletins about teacher education. These bulletins are available in the offices of the registrar and of the education department.

For further information, students may consult Dr. Y. L. Medlin, chairman of the department of education.

(NOTE: Graduate students seeking teacher renewal credit or teacher certification may also enroll in courses at Queens. For details, interested students should consult Dr. Medlin or Miss Gordon Freeman, director of continuing education.)

Distributed Requirements

The distributed requirements, totaling at least 33 hours, assist the student in developing a program of study which will be widely representative of liberal arts studies. With one exception (Area I) these courses may be taken at any time during the student's years of attendance.

Area	Number of Courses (3 credit hours or more)
I. Research Writing Skills (English 101), Communications and the Humanities (English 105) *(taken in freshman year unless exempt)*	1
II. French, German, Russian, Spanish or Mathematics	2
III. History, Philosophy, Religion	2
IV. Biology, Chemistry, Physics, Interdisciplinary Science I and II	2
V. Economics, Political Science, Psychology, Sociology	2
VI. Art, Literature, Music	2

Students may take either course in area I. Courses which meet distributed requirements in areas II-VI are designated in each department heading in the course descriptions. Students may elect any two of the specified courses in areas II-VI, and are advised to investigate as many disciplines as possible within the framework of the distributed requirements and through elective courses.

Elective Hours

In consultation with faculty advisors, students choose elective hours, in addition to distributed and major area requirements, to complete the hours required for graduation. Electives afford an opportunity to explore new fields, to study in fields which directly support the major program, and to gain knowledge in additional areas.

Physical Education

With the exception of candidates for the B.S. degree in nursing, all candidates for degrees must complete four non-academic credit hours in physical education with a grade of P (passing).

Nursing degree candidates must complete two such credit hours. One hour is given for each term of participation. These physical education hours must be earned by the end of the junior year. No specific course is required.

Students requesting exemption from physical education activities for medical reasons must make such requests through the college physician and have approval of the dean of the college. Chronic conditions which would warrant exemption are to be noted on the student's medical examination form for review by the college physician.

Three Year Degree Program

While degree programs generally extend over a four year period, a Queens College student may complete a degree program in three years. The Three Year Program would involve attendance at two May Terms or summer sessions. Courses taken during the summer could be reduced if the student took extra courses during the three regular academic years.

The Three Year Program could be arranged as follows:

	Term I (Fall)	Term II (January)	Term III (Spring)	May Term and Summer Sessions
	Suggested Distribution of Credit Hours			
1st Year	14	4	14	9
2nd Year	14	4	14	9
3rd Year	14	4	14	
	42	12	42	18 = 114

ACADEMIC REGULATIONS

Registration

Students are expected to register for course work at the time specified each term. Registration after the scheduled time subjects the student to a $15 fee. No registrations are permitted after the first full week of classes.

A student may change her registration only during the first two weeks of classes. Any change thereafter is considered a withdrawal. The class-change fee is $3 for each class dropped, as well as for each class added, unless such change or addition is on the recommendation of the faculty advisor.

Term Load

The academic year consists of two 12 class-week terms (I and III) and interim term (II) of four class weeks. The normal load for all students is from 12 to 14 credit hours in Terms I and III and four credit hours in Term II. Any student wishing to take less than 12 or more than the 14 hour maximum in Terms I and III must obtain permission from the dean of the college. A student must take an average load of 29 hours each year if she is to attain the 114 hours required for graduation in the four regular academic years.

Grades and Quality Points

Graduation requirements are based on both the quantity and quality of the student's work. Queens uses the following system of grades and quality-point value per credit hour:

Grade	Interpretation	Quality-Point Value
A	Superior	3
B	Good	2
C	Satisfactory	1
D	Poor	0
P	Pass	0
F	Failing	-1
WF	Withdrew Failing	-1
WP	Withdrew Passing	no effect on quality points
E	Conditional Failure	becomes D or F after reexamination
I	Incomplete Work	may become A to F upon completion

Grades in physical education are P (passing) or NR (no record). A grade of E or I automatically becomes F if the student fails to make up incomplete work satisfactorily. These grades must be removed by the end of the first full week of regular classes of the next term for Terms II and III. A grade of E or I received during Term I must be removed by the end of the first full week of regular classes of Term III.

Grade reports are sent to parents or guardians at the end of each term or at the time of withdrawal from a course. Mid-term reports are issued in Terms I and III to indicate special difficulties in course work. Only term grades are permanently recorded.

A student who has earned an F for a course grade may repeat that course; the F will remain on the student's record in that case, but only the second grade for the course will be figured into the student's cumulative QPA.

Pass/No Record

During each academic year at the college a student may enroll on an ungraded basis (Pass/No Record) in two courses. These courses do not include those designated P/NR for all students. Courses selected by the student to fulfill the Distributed Requirements may be taken P/NR. Some courses specifically designated and those in the student's major may not be taken P/NR. P equals a grade of C or above; NR equals a grade of D or less. Courses taken for P/NR are not counted in the calculation of the student's quality point average.

Courses to be taken for P/NR must be designated and approved by the student's advisor before the end of the mid-term plus two weeks during Terms I and III and before the end of the mid-term plus three days during the short term. This information is to be given to the registrar by the student, and the registrar will notify the instructor of the P/NR decision. If a P/NR course is chosen and is later included in the field of concentration, the course must still count as P/NR.

Student Rank

Students following a degree program and carrying the required term load are granted class rank according to their credit hours earned.

Class Rank	Credit Hours
Freshman	0 - 27
Sophomore	28 - 55
Junior	56 - 84
Senior	85 - 114

A *regular student* is one who is admitted as a degree candidate. Full-time students are enrolled for nine to 15 credit hours in Terms I and III, and for three to four credit hours in Term II. Part-time students are registered for eight credit hours or less during Terms I and III, and for two credit hours or less in Term II.

A *special student* is one who is admitted with non-degree status and may enroll for a cumulative total of 15 credit hours. After completing 15 credit hours, a special student must apply for regular admission or receive special permission to continue.

A *contract student,* a degree candidate at another institution, is enrolled for credit at Queens through arrangements with the institution which will ultimately grant the degree.

A *teacher certification student* is any student with a college degree who is enrolled in courses for purposes of teacher certification or renewal.

A *continuing education* student is one who is enrolled only in non-credit programs.

Academic Standards

While Queens makes every effort to encourage students and to assist those in difficulty, it is unfair to the student and to the college to retain anyone who fails to make reasonable progress.

Eligibility to Continue

The Student Qualifications Committee reviews each case of academic difficulty at the end of Terms I and III and determines the student's eligibility status.

Probation

A student who does not maintain satisfactory scholastic standing may be placed on academic probation. A student is automatically on academic probation if her cumulative quality point average is below the following values for class standing.

Class Standing	*Credit Hours*	*Term I Completed*	*Term III Completed*
Freshman	0-27	.500	.800
Sophomore	28-55	.800	.900
Junior	56-84	.900	1.000
Senior	85-114	1.000	1.000

A student on academic probation may petition the Student Qualifications Committee for exception from probation if the student has achieved a QPA of 1.500 or better for the previous Term I or III.

The student who does not show improvement and fails to meet the scholastic standard may be asked to withdraw from the college.

Eligibility to Represent the College

Students who maintain a quality point average of 1.000 or more the preceding term are eligible to represent the college in off-campus extracurricular activities and to hold campus offices during the current term. Students on probation are not eligible to represent the college.

Attendance Policies

Class attendance policies are set by the individual faculty member for each course. The faculty member announces at the beginning of each term the policy he intends to apply in each particular course.

All candidates for degrees are required to be present for commencement rehearsal, baccalaureate service, and the commencement exercises.

Examinations

The student's work is evaluated periodically. At the end of each term, evaluations—normally by written examination—are made in all courses. Final written examinations are generally between two and three hours long. In 300 and 400 level courses the instructor may give the examination during the regularly scheduled time or as a take-out examination. The schedule for final examinations is established by the registrar. Permission to change an examination schedule or to make up an examination must be granted by the dean of the college.

Withdrawal from a Course

A student must obtain permission from the dean of the college to discontinue a course. After the normal drop-add period, a student who withdraws from a course at any time during the term in which she is enrolled in the course is granted a grade of WP (withdrawn passing) or WF (withdrawn failing), depending on her course average at withdrawal.

Withdrawal from College

A student wishing to withdraw from the college before the end of the term must notify the dean of the college in order to maintain good standing. Grades are recorded WP if at the date of withdrawal the work has been passed. Such a mark does not affect quality points already earned. If the work has not been passing, a mark of WF is recorded and one quality point is deducted for each credit hour. If the student does not obtain permission to withdraw, all grades are recorded as F.

The college reserves the right to require at any time the withdrawal of a student whose conduct or academic work is not considered satisfactory.

Auditing Courses

A regular student carrying a load of 12 to 14 credit hours and maintaining a B average may, with the consent of the dean of the college and at the request of the instructor, audit a course. Special students may petition the dean of the college for permission to audit a course. An auditor is expected to attend classes regularly.

Summer School Credits

Approved summer courses taken at other accredited colleges and universities and carrying a grade of C or higher may be counted toward the 114 credit hours required for graduation, provided these courses are comparable or supplemental to those offered at Queens and have been approved by the advisor and the related department head, or the dean of the college. In calculating a student's quality point average for graduation, only the credit hours and quality points earned at Queens are counted.

Undergraduate Program Tests

The college arranges for and requires all students academically classified as seniors to take the Undergraduate Program Tests.

COURSES OF INSTRUCTION

Course Listings

Course listings give general information concerning each department and the requirements for major programs in that department. These requirements should be carefully noted by students when deciding on a major.

Most of the courses in the following section will be offered in Terms I and III; however, catalogue courses for Term II are listed in this section.

Term II

Term II at Queens College is the January interim term in the 4-1-4 academic year. It provides a month during which a student concentrates on one course or learning experience. This may involve a course on campus, an off-campus internship, study travel to other countries, or a course at another 4-1-4 college.

Courses and special programs to be offered in January are described in a special bulletin which is issued separately.

Course Numbers

Course numbers indicate the level of difficulty of the course. In general, courses numbered 100-299 are primarily for freshmen and sophomores; those numbered 300-499 are primarily for juniors and seniors. In specific cases, however, the individual student's ability and background rather than her class standing will determine the appropriate level of work.

Hyphenated numbers (e. g. 101-102) designate two-term courses for which credit is not granted until the second term has been completed.

Double numbers separated by a common (e. g. 301, 302) indicate that the completion of both courses forms a desirable unit but credit may be received for one without the other. Occasionally the first course is a prerequisite to the second.

Square brackets [ ] enclosing a course number or numbers indicate that the course will not be offered during the current year.

Credit Hours Hours of credit are noted with the course description. A standard three credit hour course presumes eleven hours of work by the student each week, but the division of this time between work in the classroom or laboratory and work outside of class can vary from course to course as determined by the individual instructors and the departments. The abbreviation "HRS." used in the curriculum section indicates credit hours.

AMERICAN STUDIES

Professors Canon, Newman, Preyer; Associate Professors Lammers, Ou; Assistant Professors Abernathy, Crosthwaite, Edmondson, Gatlin, Rent, Reynolds, Rimkus, Simpson; Miss Lange.

American Studies is an interdisciplinary major program which allows students to choose courses dealing with American life and culture from a number of major areas, in addition to pursuing an analysis of specific areas of American civilization through a senior seminar and independent study projects.

A concentration in American Studies encourages students to examine the forces shaping America's civilization yesterday, today, and tomorrow, and to integrate a number of academic areas in order to analyze and re-evaluate the American Experience.

American Studies is a useful preparation for law school, government work, and journalism. It is a recognized field of graduate study, and through consultation with the education department, social studies or English certification is possible at both junior and senior high school levels.

Major At least nine hours in American history, including 203 and 204; English 331, 332; plus 15 hours at the 300 level in courses with an American emphasis (as listed below) to be chosen in consultation with an American Studies advisor. In addition, American Studies majors are required to take American Studies 200, American Studies 400, and American Studies 450.

Electives American Studies majors may elect their major program from among the following courses: Art 307; Economics 100, 351, 425, 440; English 333, 328, 329, 352; History 390, 392, 393, 394, 396, 397, 399; Music 207; Philosophy 310c; Religion 317, 323; Political Science 201, 308, 310, 313, 315, 326; Sociology 302, 308, 325, 340.

200 THE AMERICAN EXPERIENCE

Term II / 3 Hrs. / Gatlin

The course will explore significant inter-relationships among politics, economics, literature, the arts and religion at selected moments of American history. An interdisciplinary course, it will serve as an introduction to studies in American culture.

400 SENIOR SEMINAR IN AMERICAN STUDIES

Term I / 3 Hrs. / Staff

Colloquium for American Studies majors who meet for papers, reports, and lectures to synthesize insights about American society.

450 INDEPENDENT STUDY IN AMERICAN STUDIES

Opportunity for independent investigation of a theme or project to culminate in a written report. (Open to American Studies majors only.)

ART

Professor George A. Shealy; Associate Professor McClanahan; Assistant Professor Crown; *Assistant Professor Gebhardt; Mr. Barber; Mrs. Campbell; Mrs. Lamal.

The art department presents a comprehensive survey of the historical development of the visual arts and a variety of studio problems to develop the abilities of its students. Courses are designed to assist in the evolvement of standards of appreciation and of application of the plastic arts to promote professional competence and intellectual growth. The curriculum provides a fundamental basis for teaching, graduate study, or careers in art.

The department reserves the right to select and retain for the permanent collection representative student work of superior quality.

Studio courses may not be taken pass/no record.

Major Art 100, 105, 106, 211, 212, 231, 232, 303, and at least nine credit hours from courses numbered 300 and above, as approved by the major advisor.

Distributed Requirements The following courses will meet the distributed requirements, Area VI: Art 100, 211, 212, 307, 308.

---

100 INTRODUCTION TO ART

Terms I and III / 3 Hrs. / Staff

Exploration of the expressive means employed by the painter, sculptor, and architect to develop an appreciative attitude and a critical approach to art.

105, 106 ART STRUCTURE

105, Term I; 106, Term III/3, 3 Hrs./McClanahan, Shealy

Instruction in beginning drawing in various media; special emphasis on techniques and basic elements of composition.

Six hours studio a week / Studio Fee $20

---

211 ANCIENT AND MEDIEVAL ART

Term I / 3 Hrs. / Staff

Survey of stylistic developments in architecture, sculpture, painting, and the minor arts of the Mediterranean and European countries from prehistoric times to approximately 1400 A.D.

---

*On leave of absence 1974-75.

212 RENAISSANCE ART TO THE PRESENT TIME

Term III / 3 Hrs. / Staff

Survey of stylistic developments in architecture, sculpture, painting, and the minor arts of Europe and America from approximately 1400 to the present day. PREREQUISITE: Art 211 or permission of the instructor.

213 METHODS IN ART EDUCATION

Term III / 2 Hrs. / Barber

Exploration of drawing, design, color, and materials and their application to problems in art for elementary or secondary school pupils. PREREQUISITE: Art 100.

Four hours studio a week/Studio Fee $15

223 CERAMICS

Terms I and III / 3 Hrs. / Crown

Fundamentals of both hand building and throwing on the potter's wheel. Hand building techniques will include pinch, coil, and slab construction. Glaze instructions will stress the relationship between form and color.

Six hours studio a week/Studio Fee $25

231, 232 DESIGN AND COMPOSITION

231, Term I; 232, Term III / 3, 3 Hrs. / Shealy

Studies in the expressive meaning and organization of line, shape, form, and color in two and three dimensional problems. PREREQUISITE: Art 105, 106.

Six hours studio a week/Studio Fee $20

300 PRINCIPLES OF ART EDUCATION

Term to be announced / 2 Hrs. / Staff

Exploration of historical and contemporary approaches to art education, with classroom observation in local schools.

302 PAINTING

Terms I and III / 3 Hrs. / McClanahan

Studies in basic structure and color, with emphasis on pictorial elements interpreted through painting media. PREREQUISITE: Art 105, 106.

Six hours studio a week/Studio Fee $25

303 DRAWING I

Term I / 3 Hrs. / Shealy

Use of a variety of graphic media as the student explores the nature of form, with major emphasis on the figure and its underlying structure. PREREQUISITE: Art 105, 106.

Six hours studio a week/Studio Fee $20

304 DRAWING II

Term III / 3 Hrs. / Shealy

Work in figure, landscape, and still life; special emphasis on the expressive and imaginative use of various graphic media. PREREQUISITE: Art 303.

Six hours studio a week/Studio Fee $20

305 EUROPEAN ART

Summer / 3 Hrs. / Class session in Vienna, five weeks / Offered only in the Queens European Program, The Institute of European Studies.

European painting, sculpture, architecture, artifacts, and jewelry observed during the Queens European Program. Many class sessions in Vienna museums.

[307] ART IN THE UNITED STATES

Term I / Alternate years; offered 1975-76 / 3 Hrs. / Staff

Study of the architecture, sculpture, painting, and minor arts of the Colonial period through the present, supplementing courses in American social and political history.

314 SCULPTURE

Term I / 3 Hrs. / Crown

Fundamental studies in the creative organization of space and mass; the technical problems of modeling, casting, and carving. PREREQUISITE: Art 105, 106.

Six hours studio a week/Studio Fee $25

315 ADVANCED SCULPTURE

Term III / 3 Hrs. / Crown

Advanced studies in form and methods relating to the design and construction of three dimensional objects. PREREQUISITE: Art 314.

Six hours studio a week/Studio Fee $25

324 POTTERY

Terms I and III / 3 Hrs. / Crown

Further exploration of ceramic possibilities including advanced throwing techniques, larger hand construction projects as well as basic glaze formulation theory.

Six hours studio a week/Studio Fee $25

401 ADVANCED PAINTING

401, Terms I and III / 3 HRS. / MCCLANAHAN

Advanced study with an emphasis on the individual development and experimentation in a chosen painting medium. PREREQUISITE: Art 302.

Six hours studio a week/Studio Fee $25

403 PRINTMAKING

Term I / 3 HRS. / MCCLANAHAN

Exploration of the basic principles of printmaking through such media as wood cuts, linoleum cuts, or serigraphy. Pictorial composition, sound procedure, and techniques are stressed. PREREQUISITE: Art 231, 232 or permission of the instructor.

Six hours studio a week / Studio Fee $25

404 ADVANCED PRINTMAKING

Term III / 3 HRS. / MCCLANAHAN

Studies in intaglio techniques with emphasis on the individual student's creative advancement. PREREQUISITE: Art 403 or permission of the instructor.

Six hours studio a week / Studio Fee $25

405 NINETEENTH CENTURY PAINTING

Term I / 3 HRS. / STAFF

Study and analysis of painting from the time of David through the Post-Impressionists and resulting influence upon the development of art in the 20th century. PREREQUISITE: Art 211 or 212 or permission of the instructor.

406 TWENTIETH CENTURY PAINTING

Term III / 3 HRS. / STAFF

Historical study of international artistic expressions of the 20th century and discussions of trends and aesthetics of contemporary art. PREREQUISITE: Art 211 or 212 or permission of the instructor.

425 VISUAL COMMUNICATION: LETTER FORMS

Term to be announced / 3 HRS. / SHEALY

An exploration of the development of letter forms in writing and type faces, with emphasis on calligraphic style, clarity, and beauty. PREREQUISITE: Art 231, 232.

Six hours studio a week / Studio Fee $15

426 VISUAL COMMUNICATION: DESIGN IN ADVERTISING AND PUBLISHING

Term to be announced / 3 HRS. / SHEALY

Problems in visualization and design of various forms common to advertising and publishing. PREREQUISITE: Art 425.

Six hours studio a week / Studio Fee $15

450 PROBLEMS IN ART

Terms I, II, III / 3 HRS. / STAFF

Advanced work in specialized areas of art for students with unusual talent and scholarship. No student may take work in more than two areas.

Admission by permission of department head and instructor.

Studio fee: to be determined by project

BIOLOGY

Professor Fehon; Associate Professor Martin; *Associate Professor Coffey; Assistant Professor Diebolt; Mrs. Innes.

To serve the needs of the liberal arts student the department offers introductory work in biology with a contemporary molecular emphasis relating the field to the physical sciences and other disciplines. Major study in biology provides basic preparation leading to work in research and medical laboratories, government positions, related businesses, teaching, and graduate study in biology or medicine.

A unique program in marine science is offered each summer at Pawleys Island, South Carolina. The department is also affiliated with the Gulf Coast Research Laboratory, Ocean Springs, Mississippi. Courses available to Queens students are listed at the end of this section.

Major Bachelor of Arts

Twenty-nine credit hours from biology courses numbered 200 and above as approved by major advisor. Students majoring in biology are required to take eight credit hours of chemistry and Mathematics 105 or 112 or 206. Chemistry 403, 404 may be substituted for biology electives. Candidates for teaching certificates may substitute up to four credit hours of Education 442 for biology electives. Students majoring in biology are advised to take physics and organic chemistry.

Major Bachelor of Science

Biology 103, 204, 206; and three courses from 303, 304, 301, 302, 405; two courses from 300, 306, 401, 402, 402L; nine hours of biology courses numbered 200 and above as approved by the major advisor. Students majoring in this program are required to take two years of chemistry including a term of organic chemistry; Physics 101, 102; Mathematics 112 and 211 or 206. In addition intermediate-level proficiency is required in a foreign language.

Distributed Requirements

The requirement for Area IV is met with Biology 103.

Prerequisite

Biology 103 is prerequisite to all other courses offered in the department.

*On leave, 1974-75, Terms II and III

103 INTRODUCTION TO BIOLOGY

Term I / 4 Hrs. / Coffey, Fehon, Martin

Course to introduce the student to methods and philosophy of biological science and to acquaint the student with current problems in the field; emphasis on the ecological approach with special attention to man-created problems.

Six hours lecture and laboratory a week

111 HUMAN ANATOMY AND PHYSIOLOGY

Term I / 4 Hrs. / Martin, Diebolt

The study of human structure and function. Laboratory includes animal dissection and histology.

Three hours lecture and three hours laboratory a week.

(May not be counted toward major or as distributed requirement)

112 HUMAN ANATOMY AND PHYSIOLOGY

Term III / 4 Hrs. / Diebolt

Continuation of Biology 111. Laboratory includes basic physiological experiments.

Three hours lecture and three hours laboratory a week

(May not be counted toward major or as distributed requirement)

120 INTRODUCTION TO MEDICAL MICROBIOLOGY

May and June Terms / 3 Hrs. / Diebolt

Principles of microbiology with emphasis on the pathogenic bacteria, viruses, rickettsiae, and fungi. Laboratory includes methods for cultivation, isolation, and identification of the above.

(May not be counted toward major or as distributed requirement)

204 PLANT BIOLOGY

Term I / 4 Hrs. / Coffey

Morphological survey of the plant kingdom; study of life cycles emphasizing evolutionary changes; consideration of economic aspects.

Eight hours lecture and laboratory a week

206 ANIMAL BIOLOGY

Term III / 4 Hrs. / Martin

Survey of the animal kingdom; study of the organization and activities of animals with emphasis on man; and evolution of animal life.

Eight hours lecture and laboratory a week

230 FIELD STUDIES IN BIOLOGY

Terms I, II, III or May Term / Offered on demand / 1-4 Hrs.

STAFF

Includes studies in selected habitats or of particular groups of animals or plants, or travel-study to unusual habitats or ecosystems.

Topics are announced annually. Grading is P/NR. PREREQUISITE: Permission of the instructor. May not be counted toward the major or to distributed requirements. May be repeated under different subtitles.

[300] CELL BIOLOGY

Term I / Alternate years; offered 1975-76 / 4 Hrs. / COFFEY

Study of cell structure and physiology. Laboratory emphasizes research methods including instruments and techniques used in studying cells. PREREQUISITE: At least one year of college chemistry; Biology 104 and 106 recommended.

Eight hours lecture and laboratory a week

301 VERTEBRATE EMBRYOLOGY

Term III / Alternate years; offered 1974-75 / 4 Hrs. / MARTIN

Study of development with emphasis on vertebrates and a brief introduction to experimental embryology. Laboratory emphasizes amphibians and birds. PREREQUISITE: Biology 106.

Eight hours lecture and laboratory a week

302 COMPARATIVE VERTEBRATE ANATOMY

Term I / Alternate years; offered 1974-75 / 4 Hrs. / DIEBOLT

Review of the evolutionary history of vertebrates with comparative study of their systems. Laboratory dissection of dogfish, mud puppy, and cat. PREREQUISITE: Biology 106.

Eight hours lecture and laboratory a week

[303] INVERTEBRATE ZOOLOGY

Term III / Alternate years; offered 1975-76 / 4 Hrs. / FEHON

Study of the invertebrate phyla; comparative anatomy and physiology; natural history; systematics and evolution. Laboratory includes physiological experiments and emphasizes marine forms. PREREQUISITE: Biology 106.

Eight hours lecture and laboratory a week

304 ECOLOGY

Term I / Alternate years; offered 1974-75 / 4 Hrs. / COFFEY.

Relationship of organisms to their environment; populations and communities: aquatic and terrestrial habitats; statistical methods. Laboratory includes both experimental and field studies. PREREQUISITE: Biology 104, 106.

Eight hours lecture and laboratory or field work a week

[306] LABORATORY MICROBIOLOGY

Term III / Alternate years; offered 1975-76 / 4 Hrs. / Fehon

General survey of microorganisms with emphasis on morphology, metabolism, ecology, and taxonomy of bacteria. Laboratory includes independent studies. PREREQUISITE: Eight credit hours of chemistry.

Eight hours lecture and laboratory a week

310 MARINE BIOLOGY

Summer / 4 Hrs. / Fehon

Introduction to oceanography and marine biology with emphasis on ecology and distribution and classification of local fauna and flora. PREREQUISITE: Biology 106; Biology 201 recommended.

Four weeks, summer session only, at Pawleys Island, South Carolina

315 HISTOLOGY AND MICROTECHNIQUE

Term II / Alternate years; offered 1974-75 / 4 Hrs. / Martin

The study of animal cells, tissues, and organs. Laboratory emphasizes practical experience in preparation of microscope slides. PREREQUISITE: Biology 106.

[401] COMPARATIVE VERTEBRATE PHYSIOLOGY

Term I / Alternate years; offered 1975-76 / 4 Hrs. / Diebolt

Study of the function of vertebrate systems. Comparisons made to invertebrate systems where appropriate. Includes lecture and laboratory experimentation. PREREQUISITES: Biology 302 or permission of instructor; one year college chemistry.

Eight hours lecture and laboratory a week

402 GENETICS

Term I / Alternate years; offered 1974-75 / 3 Hrs. / Martin

Principles of heredity and variation in plants and animals. PREREQUISITE: Mathematics 112 or permission of the instructor. Does not count toward the major without Biology 402L.

Three hours lecture a week

402L GENETICS LABORATORY

Term I / Alternate years; offered 1974-75 / 1 Hr. / Martin

Laboratory methods in breeding genetically important species. COREQUISITE: Biology 402.

Three hours laboratory a week

[405] PLANT SYSTEMATICS

Term III / Alternate years; offered 1975-76 / 4 Hrs. / Coffey

Development of systems of classification; study of basic principles; practice in identification; collection and study of members of plant families represented in local flora. PREREQUISITE: Biology 104.

Eight hours lecture and laboratory a week

[425] BIOLOGY OF PARASITISM

Term III / Alternate years; offered 1975-76 / 4 Hrs. / Martin

Introduction to biological principles involved in parasitism of animals including man; host-parasite relationships; ecology; structure and classification. PREREQUISITE OR COREQUISITE: Biology 201.

Three hours lecture and three hours laboratory a week

450 INDEPENDENT STUDIES IN BIOLOGY

Terms I, II, III / 1 to 4 Hrs. / Staff

Research projects in the area of the student's interest; written report and/or oral examination may be required; summer research in marine biology. May be taken more than once but total credits may not exceed six hours.

Admission by permission of the instructor

Gulf Coast Research Laboratory

Queens students may receive credit for the following courses which are given at the Gulf Coast Research Laboratory at Ocean Springs, Mississippi. These are offered during summer session only.

BIOLOGY 361 Marine Botany / 4 Hrs.

A survey, based upon local examples of the principal groups of marine algae and maritime flowering plants, treating structure, reproduction, distribution, identification, and ecology. PREREQUISITE: 10 hours of biology, including introductory botany.

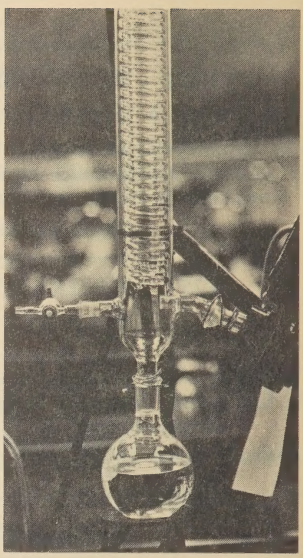
BIOLOGY 362 Marine Vertebrate Zoology and Ichthyology / 6 Hrs.

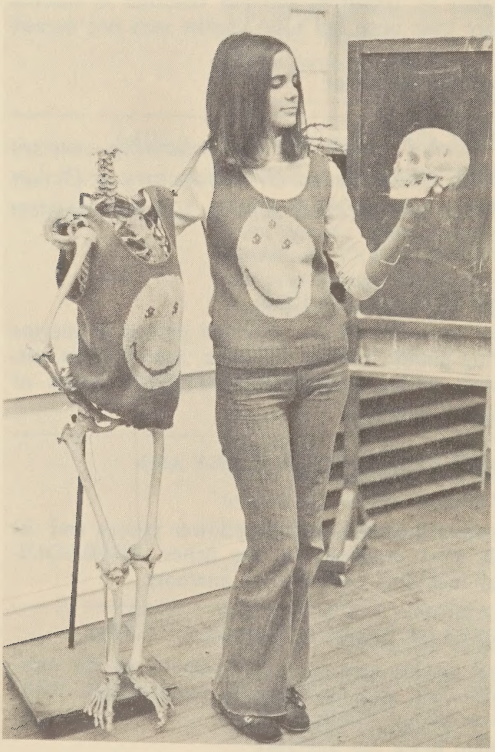
A general study of the marine Chordata, including lower groups and the mammals and birds, with most emphasis on the fishes. PREREQUISITE: 16 hours of zoology including comparative anatomy.

BIOLOGY 461 Parasites of Marine Animals / 6 Hrs.

A study of the parasites of marine animals with emphasis on the morphology, taxonomy, life histories, and host-parasite relationships. PREREQUISITE: General parasitology (Biology 425).

Lecture, laboratory, and field work are included.





CHEMISTRY

Professor Trimble; Professor Duncan; Professor Oates; Assistant Professor Diebolt; Mrs. Innes.

The department offers two majors: chemistry and biological chemistry. The degree bachelor of arts or bachelor of science is available to students in each of these areas.

The bachelor of arts program emphasizes the breadth of a liberal arts education in terms of a wide range of elective courses together with a sound education in chemical principles and laboratory skills. The B. A. graduate is thus equipped for employment in the chemical or paramedical fields or for active involvement in community affairs as a citizen well-informed in scientific affairs. Teacher certification may also be obtained.

The bachelor of science program is designed to provide an educational experience with more depth in science and mathematics. Students are prepared by this program to pursue careers in chemistry and medicine which will require graduate study or formal professional training in medical school. Well-equipped laboratories and qualified staff make possible a special emphasis on clinical and industrial applications of chemistry.

Majors in Chemistry

Major for a B. A. in chemistry: Chemistry 101, 102, 208, 303, 307, 308, 403, 450, 460, 461; Laboratories 1, 2, 3, 5, 6, 7, 9; Mathematics 112, 211; Physics 101, 102. German, French, or Russian is recommended. The student may substitute Chemistry 405 or one term of inorganic chemistry (currently available through the Charlotte Area Educational Consortium) for Chemistry 450. Candidates for teaching certificates may substitute as many as four credit hours of Education 442 for Chemistry 450.

Major for a B. S. in chemistry: Chemistry 101, 102, 208, 303, 304, 307, 308, 309, 403, 450, 460, 461; Laboratories 1, 2, 3, 4, 5, 6, 7, 9, 10; Mathematics 112, 211, 212; Physics 101, 102. Proficiency in a foreign language at the intermediate level is required. The student may substitute one term of inorganic chemistry (currently available through the Charlotte Area Educational Consortium) for Chemistry 450.

Majors in Biochemistry

Major for a B. A. in biological chemistry: Chemistry 101, 102, 208, 303, 308, 403, 404, 405, 460, 461; Laboratories 1, 2, 3, 5, 6, 7, 8, 9; 12 credit hours of approved biology courses above the 100 level; Physics 101, 102; Mathematics 112. Mathematics 211 and German, French, or Russian are recommended.

Major for a B. S. in biological chemistry: Chemistry 101, 102, 208, 303, 304, 308, 403, 404, 460, 461; Laboratories 1, 2, 3, 5, 6, 7, 8, 9; 12 credit hours of approved biology courses above the 100 level; Physics 101, 102; Mathematics 112, 211. Proficiency in a foreign language at the intermediate level is required, and Chemistry 405 is recommended.

Distributed Requirements

The requirement, Area IV, may be met by Chemistry 101; also Chemistry 102 or Chemistry 303 by permission of department.

Course Sequences

After completing Chemistry 102, students are advised to take courses in the order listed in either of two sequences:

Instrumentation–Physical Chemistry sequence: 208, 307, 308.

Organic Chemistry–Biological Chemistry sequence: 303, 403, 404.

Other courses may be taken in any sequence provided prerequisites are met.

Laboratories

The department requires a student to register for a laboratory with each class course.

---

101 GENERAL CHEMISTRY I

Term I / 3 Hrs. / Staff

This course includes the structure of the atom; the structure of the nucleus and nuclear chemistry; the Periodic Table; chemical bonding; solids, liquids, and gases; and stoichiometric relationships, the properties of solutions, colloidal systems, chemical equilibria, thermochemistry, electrochemistry, metals, and non-metals.

Three hours lecture a week

---

102 GENERAL CHEMISTRY II

Term III / 3 Hrs. / Staff

This course is an introduction to organic chemistry and biochemistry, including functional groups, reactions, synthesis, and mechanisms. PREREQUISITE: Chemistry 101 or permission of the instructor.

Three hours lecture a week

---

203 TOPICS IN ORGANIC CHEMISTRY

Term II / 3 Hrs. / Trimble

Course surveys the chemical substances and processes underlying clinical chemistry. Includes lectures, discussions, laboratory work, and supervised library study.

Course content is basically a study of alcohols, carbonyl compounds, amines and acids. Special emphasis is placed on carbohydrates, lipids, proteins and other selected natural products. Laboratory exercises review basic laboratory techniques, instrumental methods, computer use and other calculation aids. These exercises include interpretation and evaluation of the data encountered in the modern clinical laboratory. Library study is directed toward the appropriate analytical, biochemical literature. (This course is not an approved elective for majors in chemistry and biology.) PREREQUISITE: Chemistry 101 or permission of the instructor.

208 INSTRUMENTAL ANALYSIS I

Term I / 3 Hrs. / Duncan

Introduction to instrumentation and instrumental analysis with emphasis on fundamental electronic units, instrument design and construction, and analytical application. PREREQUISITE: Chemistry 102 or permission of the instructor.

Three hours lecture a week

303 ORGANIC CHEMISTRY I

Term I / 3 Hrs. / Trimble

Introductory course including an integrated survey of the more important compounds of the aliphatic and aromatic series; emphasis on problems in organic synthesis. PREREQUISITE: Chemistry 102 or permission of the instructor.

Three hours lecture a week

[304] ORGANIC CHEMISTRY II

Term III / Alternate years; offered 1975-76 / 3 Hrs. / Trimble

Theoretical course treating the mechanisms of organic reactions in terms of modern structural theories. PREREQUISITE: Chemistry 303 or permission of the instructor.

Three hours lecture a week

307 INSTRUMENTAL ANALYSIS II

Term III / 3 Hrs. / Duncan

A second course in instrumental analysis with emphasis on analytical methodology. PREREQUISITE: Chemistry 208.

Three hours lecture a week

308 PHYSICAL CHEMISTRY I

Term I / Alternate years; offered 1974-75 / 3 Hrs. / Oates

Study of the structure of gases, the physical properties of matter, the laws of thermodynamics and the principles of equilibria. PREREQUISITE: Chemistry 102 or permission of the instructor; Mathematics 112; Physics 101, which may be taken concurrently.

Three hours lecture a week

309 PHYSICAL CHEMISTRY II

Term III / Alternate years; offered 1974-75 / 3 Hrs. / Oates

Second course in physical chemistry with emphasis on properties of solutions, electrochemistry, quantum chemistry, and chemical kinetics. PREREQUISITE: Chemistry 308 or permission of the instructor.

Three hours lecture a week

403 BIOLOGICAL CHEMISTRY I

Term III / 3 Hrs. / Staff

Review of certain chemical principles dealing with solutions, with emphasis on pH/study of the chemistry of carbohydrates, lipids, and proteins. PREREQUISITE: Chemistry 303.

Three hours lecture a week

404 BIOLOGICAL CHEMISTRY II

Term I / 3 Hrs. / Duncan

Emphasis is on enzymes and metabolism with special reference to recent work on enzyme kinetics. PREREQUISITE: Chemistry 403 or Biology 300 or permission of the instructor.

Three hours lecture a week

405 PHYSIOLOGICAL CHEMISTRY

Term III / 3 Hrs. / Duncan

A course applying principles of biochemistry to the interpretation of normal and abnormal genetic and physiological states occurring in Mammalia; discussion of digestive processes, fluid and acid-base balance, hormonal influence on physiological states, organ function tests, and excretory processes. PREREQUISITE: Biological Chemistry II.

Three hours lecture a week

450 DIRECTED INDIVIDUAL STUDIES

Terms I, II, III / 2, 3, or 4 Hrs. / Staff

Individual research conducted by the student. PREREQUISITE: Open to advanced students by permission of the instructor.

Three, six, or nine hours of consultation and laboratory work a week

460, 461 CHEMISTRY SEMINAR

Terms I and III / 1, 1 Hrs. / Staff

Faculty and students will present oral reports on new or important developments in chemistry or in fields directly related to chemistry. PREREQUISITE: Chemistry 208 or 303 or permission of the instructor. May be repeated for credit.

One hour lecture a week

L 1 LABORATORY 1 – INTRODUCTION I

Term I / 1 Hr. / Staff

This laboratory introduces the student to elementary glass-working, general laboratory equipment and techniques, and the principles of quantitative operations.

Three hours laboratory a week

L 2 LABORATORY 2 – INTRODUCTION II

Term III / 1 Hr. / Staff

The student in this laboratory is introduced to semimicro technique, chromatography, spectroscopy and other tools of qualitative and quantitative analysis. PREREQUISITE: Laboratory 1 or permission of the department.

Three hours laboratory a week

L 3 LABORATORY 3 – INSTRUMENTATION I

Term I / 1 Hr. / Staff

The student is introduced to the practical aspects of instrument design and construction and to the calculations and techniques of quantitative analysis. PREREQUISITE: Laboratory 2 or permission of the instructor.

Three hours laboratory a week

L 4 LABORATORY 4 – INSTRUMENTATION II

Term III / 1 Hr. / Staff

The student undertakes the practical evaluation of experimental methods and instruments best suited for specific advanced analytical problems. PREREQUISITE: Laboratory 3.

Three hours laboratory a week

L 5 LABORATORY 5 – INSTRUMENTATION III

Term I / 1 Hr. / Staff

The student is introduced to the basic devices for precise physical measurement. She undertakes a significant independent laboratory investigation that involves instrumentation and careful physical measurements. PREREQUISITE: Laboratory 4.

Three hours laboratory a week

L 6 LABORATORY 6 – SYNTHESIS I

Term I / 1 Hr. / Trimble

Course introduces the student to the basic experimental techniques of advanced chemical synthesis of both organic and inorganic compounds. PREREQUISITE: Laboratory 2.

Three hours laboratory a week

L 7 LABORATORY 7 – BIOCHEMISTRY I

Term III / 1 Hr. / Duncan

Basic principles and techniques of biochemical laboratory investigation introduced; work is quantitative in nature. PREREQUISITE: Laboratory 3 and 6 or permission of the instructor.

Three hours laboratory a week

L 8 LABORATORY 8 – BIOCHEMISTRY II

Term I / 1 Hr. / Duncan

Course is a continuation of Laboratory 7 with special emphasis given to advanced biochemical methodology and to quantitative measurement. PREREQUISITE: Laboratory 7.

Three hours laboratory a week

L 9 LABORATORY 9 – SYNTHESIS II

Term III / 1 Hr. / Trimble

Study of advanced qualitative analysis and advanced inorganic and organic synthesis. Emphasis is placed on the use of the chemical literature and the structuring of independent work. PREREQUISITE: Laboratory 5 and 6. (Laboratory 5 may be taken concurrently.)

Three hours laboratory a week

L 10 LABORATORY 10 – INSTRUMENTATION IV

Term III / 1 Hr. / Duncan

Recent developments in laboratory instrumentation and methodology with emphasis on independent laboratory work by the student in an area of current research interest. PREREQUISITE: Laboratory 5 and 7.

Three hours laboratory a week

L 11 LABORATORY 11 – BIOCHEMISTRY III

Term III / 1 Hr. / Duncan

Classical clinical laboratory methods used to investigate the influence of carbohydrate, protein, lipid, hormonal, and inorganic constituents of body fluids on the physiological state of the individual animal. Open to advanced students by permission of the instructor.

Three hours laboratory a week

NOTE: Laboratories 3 through 11 may be scheduled for other terms with the approval of the department.

ECONOMICS/BUSINESS

Associate Professor Ou; Assistant Professor Simpson; Assistant Professor West.

Courses offered in this department provide opportunity for the study of the principles that govern economic systems, in theory and in practice. Major study in economics may lead to careers in banking, commerce, industry, and government or to graduate study in economics, business, and law.

Courses in business and in secretarial training are planned for students who wish to supplement their academic programs. If all courses offered in secretarial practice are successfully completed, a student should be adequately prepared to accept secretarial opportunities in her major field. An academic major combined with secretarial skills often leads to responsible positions in business, industry, and education.

Major Economics 203, 204, 323, 324, 450 and Mathematics 206 are required of all majors. In addition, students have an option of choosing (1) 12 credit hours from Groups A and B, with a minimum of six hours from each of the two groups, or (2) taking Economics 207, 208, 305, 310, 351, and one other course from Group A or Group B. Option 2 is designed for the student who intends to follow a career in business.

Group A:
- Comparative Economic Systems
- History of Economic Thought
- International Trade
- Economic Growth and Development

Group B:
- Money and Banking
- Public Finance
- Government and Business
- Economics of Human Resources
- Business Finance
- Urban Economics

Distributed Requirements

The requirement, Area V, may be met by Economics 100, 103, 203, or 204.

Business-Secretarial Proficiency Certificate

A Business-Secretarial Practice Proficiency Certificate will be awarded by the department to those students who have completed at least two years at Queens (a minimum of 54 hours); 20 hours of courses approved by the department; and an additional 34 hours of the required courses, or equivalent proficiency, listed below:

Economics 101, 102, 211-212, 234, 250, 207, 208, 310, 311, English 109, and Mathematics 100 and 102.

---

100 AMERICAN ECONOMIC DEVELOPMENT

Term III / 3 Hrs. / Ou

Introduction to the study of economics, in the context of a survey of the economic development of the United States.

Open to freshmen only

---

103 FRESHMEN SEMINAR IN ECONOMICS

Term I / 3 Hrs. / Simpson

Discussion of economic topics of current interest, for students with little or no background in economics.

Open to freshmen only

---

203 PRINCIPLES OF ECONOMICS I

Term I / 3 Hrs. / Simpson

Introductory survey of aggregate economic principles; the scope and method of economics; business organizations; money and prices; national income theory; economic stabilization policies and international trade.

---

204 PRINCIPLES OF ECONOMICS II

Term III / 3 Hrs. / Ou

Survey of economic principles, dealing with specific components of the economy and their application to economic problems; basic demand and supply theory; the theory of production and income distribution; agriculture, government regulation, and labor organizations.

---

305 PERSONAL AND FAMILY ECONOMICS

Term III / 3 Hrs. / Staff

Study of the management of personal and family financial affairs. (Does not fulfill Distributed Requirements, Area V.) Open to juniors and seniors only.

---

323 INTERMEDIATE MACROECONOMIC THEORY

Term III / 3 Hrs. / Ou

Investigation of contemporary macroeconomic concepts and analysis. Topics include the level, fluctuations, and growth of national income, and monetary and fiscal policies designed to achieve economic goals. PREREQUISITE: Economics 203.

---

324 INTERMEDIATE MICROECONOMIC THEORY

Term I / 3 Hrs. / Ou

Study of the behavior of the consumer and the firm under various market conditions; the determination of prices and the distribution of income in a free-enterprise economy. PREREQUISITE: Economics 204.

[336] COMPARATIVE ECONOMIC SYSTEMS

Term I / 3 Hrs. / Ou

A study of alternative economic systems, including capitalism, fascism, socialism, communism, and their variants; combination of analytical and case-studies approach. PREREQUISITE: Economics 203 or 204.

Open to juniors and seniors only

351 MONEY AND BANKING

Term I / 3 Hrs. / Ou

Study of the fundamental principles and practices of the money and credit systems of the United States: financial institutions; commercial banking; the Federal Reserve System; monetary theories and policy. PREREQUISITE: Economics 203 and 204.

[412] HISTORY OF ECONOMIC THOUGHT

3 Hrs. / Staff

Study of the major philosophers and schools of economic thought related to the economic, political, and social institutions of their times: the medieval, mercantilist, physiocrat, classical, Marxist, historical neoclassical, Keynesian and post-Keynesian schools. PREREQUISITE: Economics 323, 324, or permission of instructor.

421 PUBLIC FINANCE

Term III / 3 Hrs. / Simpson

Analysis of the impact of federal, state, and local government taxation, expenditures, budgeting, and debt management on the allocation of resources, the distribution of income, and the stabilization of national income and employment. PREREQUISITE: Economics 323. (Economics 323 may be taken concurrently.)

[422] INTERNATIONAL ECONOMICS

3 Hrs. / Staff

Study of international trade and finance: regional specialization; national commercial policies; international investments; balance of payments; foreign exchange; foreign aid policies; international agreements on tariffs and trade. PREREQUISITE: Economics 324 or permission of instructor.

[423] THE ECONOMICS OF HUMAN RESOURCES

3 Hrs. / Staff

Basic determinants of wage levels and wage differentials with the role of education, training, unions, government regulation and discrimination given special emphasis. Attention given to the earnings and employment of females and minority groups, and of manpower policies designed to reduce poverty and structural unemployment.

[425] GOVERNMENT AND BUSINESS

3 Hrs. / Staff

Study of government regulation and operation of business enterprises: the historical, political, economic, and legal aspects of government aid to, regulation of, and competition with private business enterprise. PREREQUISITE: Economics 203 or 204, or permission of instructor.

426 ECONOMIC GROWTH AND DEVELOPMENT

Term I / 3 Hrs. / Ou

Economic problems and policy issues facing less developed countries: population explosion, the agricultural revolution, industrialization, the international ecological crisis. PREREQUISITE: Economics 203 and 204 or permission of the instructor.

[440] URBAN ECONOMICS

Term III / 3 Hrs. / Ou

Development of the urban community, with particular attention to the economic problems of the city: urban renewal, minority problems, housing, pollution, recreation, and education.

449 DIRECTED INDIVIDUAL STUDY

Terms I, II, and III / 1, 2, or 3 Hrs. / Staff

A program of directed readings, independent study of an approved problem, or an approved project formulated by the student and approved by the department.

450 SEMINAR IN CURRENT ECONOMIC ISSUES

Term III / 3 Hrs. / Ou

Independent reading on topic(s) of particular interest to the student, and/or study of selected topics in economics with individual reports and class discussion. PREREQUISITE: Senior standing and 15 credit hours in economics courses numbered above 300, or permission of the instructor.

BUSINESS

102 BUSINESS MATHEMATICS

Term III / 3 Hrs. / Jenkins

A review of basic mathematics followed by the study of the fundamentals of percentage, simple interest, compound interest, and annuities, with applications.

109 BUSINESS ENGLISH

2 Hrs. / Gatlin

Basic review of grammar, punctuation, and composition skills. Some attention to oral as well as written communication. Letter writing and some introduction to technical writing.

207, 208 PRINCIPLES OF ACCOUNTING

Terms I and III / 3, 3 Hrs. / Simpson

Theory of double entry, account classification, worksheets, payroll, income tax and elementary manufacturing, trading, and nontrading business accounting; preparation of individual partnership and corporation financial statements, with consideration given to accounting data as an element of management control.

210 MARKETING

Term I / 3 Hrs. / Staff

To introduce the student to the fundamental concepts and techniques of marketing. Topics include: the nature and scope of marketing, marketing functions, market structure, consumer behavior, marketing channels, and marketing policies.

214 INTRODUCTION TO MANAGEMENT

Term III / 3 Hrs. / Staff

Introductory survey of the theory and principals of organization and management. Special attention will be given to the management functions of setting the objectives, planning, organization, motivating, supervision, coordination, and control.

234 OFFICE ADMINISTRATION

Term III / 3 Hrs. / West

Correlation of all phases of secretarial work including transcription, office management and procedures, uses of office equipment, and secretarial personality development. PREREQUISITE: Economics 102 or its equivalent.

310 BUSINESS LAW

Term III / 3 Hrs. / Staff

Course intended to give the student some knowledge of the legal rights and duties of the businessman with regard to contracts, agency, sales, negotiable instruments, employee and employer relationship; transfer of real and personal property, and related items.

352 BUSINESS FINANCE

Term I / 3 Hrs. / Simpson

Nature of business finance, corporate and non-corporate, and its relation to economics, accounting, and law: capital, capitalization, working capital; financial planning, initial financing, refinancing and expansion; internal and external financial affairs of business firms. PREREQUISITE: Economics 204, 207 and 208.

SECRETARIAL PRACTICE

101 BEGINNING TYPING

Terms I and III / 2 Hrs. / West

Training in the touch system of the keyboard; introduction to tabulation, manuscripts, and letter styles; building of typing speed.

First six weeks of term

This course is conducted on a Pass/No Record basis for all students enrolled.

102 ADVANCED TYPING

Terms I and III / 2 Hrs. / West

Mastery of tabulations, manuscripts; accurate and attractive production of business forms and statistical tables; building of typing speed to minimum 40 words per minute. PREREQUISITE: Economics 101 or equivalent.

Second six weeks of term

This course is conducted on a Pass/No Record basis for all students enrolled.

211-212 ELEMENTARY SHORTHAND

Terms I and III / 3-3 Hrs. / West

Development of a writing knowledge of Gregg shorthand to a minimum sustained note-taking speed of 80 words per minute on new material with 95 percent accuracy in transcription.

These courses are offered on a Pass/No Record or credit basis.

250 PRACTICUM

Term II, Summer / 3 Hrs. / Staff

A student will choose an office situation of her particular interest, subject to the approval of the Economics/Business Department, and work for a period of four weeks (no less than 125 hours). Each student will give a written report at the end of the four weeks, and the employer will be asked to give a critical evaluation. PREREQUISITE: Economics 102 or its equivalent, Economics 234, and a minimum of nine hours of courses required for the certificate.

311 ADVANCED SHORTHAND

Term I / 3 Hrs. / West

Building of minimum sustained note-taking speed on new material to 120 words a minute and production of commercially acceptable transcripts. PREREQUISITE: Economics 211-212 or the equivalent.

This course may be taken on a Pass/No Record or credit basis.

EDUCATION

Professor Medlin; Associate Professor Mason; Assistant Professor Smith; Miss Blount; Miss Wheeler.

Teacher certification may be obtained as a part of the student's regular four-year program. Course work is designed to meet requirements in North Carolina and some other states. Students planning to teach in a state other than North Carolina should obtain a copy of the requirements of that state and plan a program to meet those requirements. In its preparation of future teachers, the department combines contemporary knowledge with classroom theory and with experience in public school teaching.

Certification is possible in early childhood education (grades K-3); intermediate (grades 4-9); in secondary-level teaching (grades 7-12) in English, French, German, Spanish, mathematics, science (or biology or chemistry), and the social studies areas; and in the special subject areas (grades K-12) in art, Bible, library science, and music. Courses in special education are available for persons interested in that field, for example, Psychology 308 (The Exceptional Child) and Education 361.

All students seeking certification are required to have an area of concentration in an academic field or a regular or a self-structured major in education and must meet all requirements for graduation. Depending upon teaching level, one or two terms of course work in education will be necessary. Students in the early childhood program may choose to major in early childhood education or any other area of concentration offered and fulfill certification requirements at the same time. Students may use a self-structured major in education or in combination with one or more academic areas.

Early planning for certification is advisable. For specific requirements in teaching fields, students should consult the special departmental bulletins on teacher education.

Major The major in Early Childhood Education requires the following courses: Education 202, 305, 311, 312, 321, 333, 334, 401, 403, and 446; and nine credit hours of 300-400 courses related to the major and approved by the department. In addition, the student must complete the courses in the other departments required for the teaching certificate in early childhood education.

202 EDUCATIONAL PSYCHOLOGY

Terms I and III / 3 Hrs. / J. Shealy

ENGLISH

Associate Professor Atnally; Professor Newman; Associate Professor Hadley; Associate Professor Tyson; Assistant Professor Gatlin; Assistant Professor Reynolds; Mr. Farquhar.

Courses in the department include composition, literature, speech, film, dramatic arts, and journalism. Students are encouraged to take courses in all these areas, but courses in speech, film, dramatic arts, and journalism do not count towards a regular major in English. Initial courses train the student to perceive and evaluate the form, structure, and inner dynamics of any literary work. Advanced courses focus on specialized areas of relevance and are designed to give the student an awareness of ways in which other disciplines can contribute to a fuller understanding of literature.

Study of literature and composition affords preparation for professional schools in law and teaching. In addition students majoring in this department find their training applicable to editing, reportorial journalism, films, theatre, and many phases of creative writing. Students may also obtain teaching certificates through elective courses.

Students interested in drama and theatre may want to consider the program outlined at the end of the section on dramatic art.

Major English 201, English 301-302; and 21 additional hours. Major advisors will consult with students in career and graduate school preparation, and in planning tailored programs in journalism, teaching and drama. Advanced placement will allow exemption from 201. Outstanding majors will be invited by the department to participate in a program of special study which if successfully completed will result in graduation with Honors in English.

Distributed Requirements The requirement, Area I, is met by English 101 or 105, and is usually taken in either Term I or III of the freshman year. (However, English 201 may be taken simultaneously with or before 101 or 105.) The requirement, Area VI, in literature may be met by English 201, 217 or 218; or if taken in the foreign language department, any literature course numbered 300 or above.

Prerequisite English 201 is prerequisite to all English courses numbered 300 and above. In certain cases, however, with the approval of the instructor, non-English majors may be accepted into courses numbered 300 and above.

European Residency A student majoring in European studies must fulfill a residence requirement in Europe.

The European Studies Committee assists majors in planning a European residency and must approve all proposed residency programs, which should be scheduled during Term III of the junior year, the summer following the junior year, or Term I of the senior year. The committee and advisor will consult with the student during the residency and will determine the academic credit to be transferred or awarded for it when the student returns.

A student may fulfill the European residency requirement by participating in the Experiment in International Living, a program of the Association of United Colleges for Foreign Exchange and Study (see p. 158), by attending a European educational institution, or by enrolling in an American sponsored academic program which does not isolate United States participants from other students. Credits earned through these programs and approved by the committee may be transferred to Queens College.

As an alternative, a student may register for European Studies 370; Residency in Europe.

370 RESIDENCY IN EUROPE

An informal program of settled residency in Europe, planned by the student and offering as many as 12 credit hours on a P/NR basis. Credit may be granted for simple domicile with journal at one credit hour per month, or two credit hours per month if student is employed.

This course may not be taken concurrently with any other international program for which credit may transfer to Queens.

Senior Seminar

470 SEMINAR ON EUROPE

Term III / 3 Hrs. / Staff

An on-campus course required of all students majoring in European studies; taken during senior year. Students engage in independent study on an approved subject, participate in group discussions on selected topics, and meet with specialists in various branches of European studies.

FOREIGN LANGUAGES AND LITERATURES

Programs in French, German, Spanish, and Latin-American Studies and Russian Studies are available in this department. Major work in any one of these areas provides the basis for graduate study or careers in teaching, government, the foreign service, or in business fields in which a knowledge of another language is important.

College Board Foreign Language Achievement Test scores are used as a guide for placement. Entering students who have taken this test will be informed at the time of registration of their foreign language study options. A student must be properly placed in a language course before she is eligible for credit.

Study Abroad Students majoring in foreign languages will be encouraged to study abroad under the auspices and programs of approved institutions. Foreign language study, when it occurs as part of such programs, must be approved in advance by the student's foreign language advisor. Credit for such work will be granted only upon receipt of transcripts and/or the successful completion of a departmental examination.

Distributed Requirements All foreign language courses meet distributed requirements in Area II, but elementary courses numbered 101 may fulfill the Area II requirement only upon satisfactory completion of the courses numbered 102. Any departmental literature course numbered 300 and above will fulfill the requirement in Area VI.

Investigation of topics, themes, or theories concerning causation, pattern, and meaning in history; conducted on a colloquium basis.

440 RESEARCH PROBLEMS IN HISTORY

Terms I and III / 3 Hrs. / Staff

Course designed to provide training and practice in historical research and writing; required papers on different aspects of a common topic. To be taken by history majors in the junior year.

449 DIRECTED READINGS IN HISTORY

Terms I and III / 1-3 Hrs. / Staff

Independent investigation of a topic through a program of directed readings; oral examination conducted by department members.

Open to students by permission of the department only

450 INDEPENDENT STUDY IN HISTORY

Terms I and III / 3 Hrs. / Staff

Independent investigation of a topic through the writing of a research paper; oral examination conducted by department members.

Open to students by permission of the department only

475 HISTORY PRACTICUM

Offered on demand / 1-4 Hrs. / Staff

Designed to enable students to receive training in archives, museum work, restoration sites, historical agencies, or other opportunities for which history provides a background. Open only to juniors and seniors with the approval of the department.

476 HISTORIC SITES ARCHAEOLOGY: THE REED GOLD MINE

Terms I and II of Summer School / 6 Hrs. / Gluckman

The discovery of gold here in 1799 made this area of North Carolina the gold mining center of the nation up to the time of the California gold rush. Students will spend six weeks in field work learning the archaeological techniques of restoring an historic site and the laboratory methods of processing artifacts. Dr. Gluckman, chief archaeologist of the North Carolina Office of Archives and History, will direct the program. Open only to juniors and seniors or with permission of the department.

HONORS PROGRAMS

The Queens College Honors Program is designed for the academically talented student to provide her with as high a degree of freedom and individual challenge as she can accept.

Each year all rising sophomores, juniors, and seniors whose cumulative grade point average is 2.000 or higher, are designated "Eligible for Honors." All students designated "Eligible for Honors" are encouraged to take advantage of some aspect of the Honors Program. The student is assisted in developing her honors program by her advisor or a member of the Honors Committee.

Freshman Queens Scholars

A limited number of incoming freshmen are selected by the Honors Committee as Queens Scholars. Freshman Queens Scholars attend special sections of English 105, designated 105H and may attend Philosophy 203H.

In-Course Honors

Any student designated "Eligible for Honors" may pursue intensive research in courses approved for her by the respective department as acceptable for in-course honors. Successful completion of in-course honors will add one hour of honors credit to the number of credits regularly earned in the course.

Honors Colloquium

From those sophomore and junior students designated "Eligible for Honors," a selected group participates in the Honors Colloquium each year. The colloquium offers the student the opportunity for free discussion, reading, analysis, and research centered on an interdisciplinary topic of contemporary interest.

Directed Reading

Juniors and seniors designated "Eligible for Honors" may undertake intensive programs of directed reading. The student submits to the Honors Committee a proposal planned with an individual professor and approved by the department in which she intends to do the Directed Reading. This proposal must be accepted by the Honors Committee by the close of the term preceding the one in which she intends to do her work. Directed Reading is taken for a designated number of credit hours.

Honors Research

All students designated "Eligible for Honors" may undertake honors research. The student submits a proposal for research that has the approval of her research advisor. The proposal must include the topic of the research, a brief statement of the origin and relevance of the topic, a description of methods of approach as then evident to the student, and a bibliography. The topic and preliminary material are to be filed by the research advisor with the chairman of the Honors Committee by the close of the term preceding the beginning of the project. Honors research is taken for a designated number of credit hours. *Students should consult course listings of specific departments for non-honors independent study.*

Graduation with Honors Thesis

The student who wishes to graduate "With Honors Thesis," must be designated "Eligible for Honors" and have completed a minimum of five credit hours of honors credit or have permission of the Honors Committee to begin work on her thesis. The writing and the oral defense of the thesis are the culmination of a concentrated program of original research. As a basis for an honors thesis, a research program planned by the student in the spring of the junior year and approved by a thesis advisor is submitted to the Honors Committee. Upon approval of the research program by the committee, the student may enroll in HON 490-491.

In the spring of the senior year, the student is required to make an oral defense of the thesis before an examining committee. The student successfully completing this program is graduated with the phrase, "With Honors Thesis," printed on the diploma.

Graduation with Honors

The titles *summa cum laude, magna cum laude,* and *cum laude* are awarded by the administration upon the recommendation of the Honors Committee and approved of the faculty. The title *summa cum laude* is awarded to students who have a grade point average of 2.850, and to students who have successfully completed an Honors Thesis and have a grade point average of 2.750; the title *magna cum laude* to students who have a grade point average of 2.650; and the title *cum laude* to students who have a grade point average of 2.500.

HONORS COURSES

ENGLISH 105, SECTION H

Term I / 3 Hrs. / Staff

Open to Freshman Queens Scholars.

PHILOSOPHY 203H

Term I / 3 Hrs. / Staff

Open to Queens Scholars and also available to sophomores designated "Eligible for Honors."

HONORS 250; DIRECTED STUDY

Terms I, II, and III / 1, 2, or 3 Hrs.

Open only to freshmen and sophomores designated "Eligible for Honors." Working closely with an advisor of her choice, and with the approval and supervision of the Honors Committee, the student will conduct a detailed study of some topic of special interest. This study may include library research, laboratory research, and/or internship work. May be repeated only once for credit.

HONORS 300; HONORS COLLOQUIUM, 1974-75

Term III / 3 Hrs.

Open to sophomores and juniors, designated "Eligible for Honors."

HONORS 350; DIRECTED READING / 1 to 3 Hrs.

Open to juniors and seniors, under the direction of the department involved, with the approval of the Honors Committee.

May be taken more than once for credit.

HONORS 450; HONORS RESEARCH / 1 to 4 Hrs.

Open to juniors and seniors, under the direction of an individual professor with the approval and joint supervision and evaluation of the Honors Committee. Must be approved by the end of the term preceding the project.

May be taken more than once for credit.

HONORS 490-491; SENIOR HONORS THESIS / 4 to 6 Hrs.

Open to seniors, under the direction of an individual professor, with the approval and joint supervision and evaluation of the Honors Committee. Must be approved in the spring of the junior year.

HONORS 199; IN-COURSE HONORS

Terms I, II, and III / 1 Hr.

Open to students enrolled in 100 level courses. May be taken more than once for credit.

HONORS 299; IN-COURSE HONORS

Terms I, II, and III / 1 Hr.

Open to students enrolled in 200 level courses. May be taken more than once for credit.

HONORS 399; IN-COURSE HONORS

Terms I, II, and III / 1 Hr.

Open to students enrolled in 300 level courses. May be taken more than once for credit.

HONORS 499; IN-COURSE HONORS

Terms I, II, and III / 1 Hr.

Open to students enrolled in 400 level courses. May be taken more than once for credit.

INTERDISCIPLINARY STUDIES

The college offers a series of interdisciplinary seminars.

Contemporary Affairs

[200] INTERDISCIPLINARY STUDIES

Term III / 3 Hrs.

An interdisciplinary course in a major contemporary issue, offered in response to student and faculty interest. Credit as elective only.

Literature

201 INTERDISCIPLINARY STUDIES (EUROPEAN AND AMERICAN FOLKLORE)

Term I / 3 Hrs. / Hostettler and Staff

Introduction to European and American folklore traditions, including study of folk tales, customs, festivals and art forms. Guest specialists from various ethnic groups will participate. Credit as elective only.

301 INTERDISCIPLINARY STUDIES (FOLKLORE SEMINAR)

Term III / 3 Hrs. / Hostettler and Staff

Problems and techniques in folklore research, including local fieldwork and report on a topic involving oral folklore, social custom, material culture, or folk arts. PREREQUISITE: Interdisciplinary Studies 201.

Science

101, 102 ENVIRONMENTAL SCIENCE

101, Term II; 102, Term III / 3, 3 Hrs. / Staff

A study of the environmental issues confronting our present society: energy, population, pollution, natural resources, food production, materials production, waste disposal, transportation. Certain scientific principles are considered to the extent necessary for a basic understanding of the environmental problems, and some attention is given to the role of science in the development of and attempted solutions to these problems.

Major topics included in Environmental Science 101 are the earth and its place in the universe, the generation of electric energy, air pollution, thermal pollution, radioactivity, radioactive wastes and their disposal. Topics in Environmental Science 102 include land use, food production, population, water pollution, food additives, the urban and suburban environment, solid wastes, noise pollution, transportation.

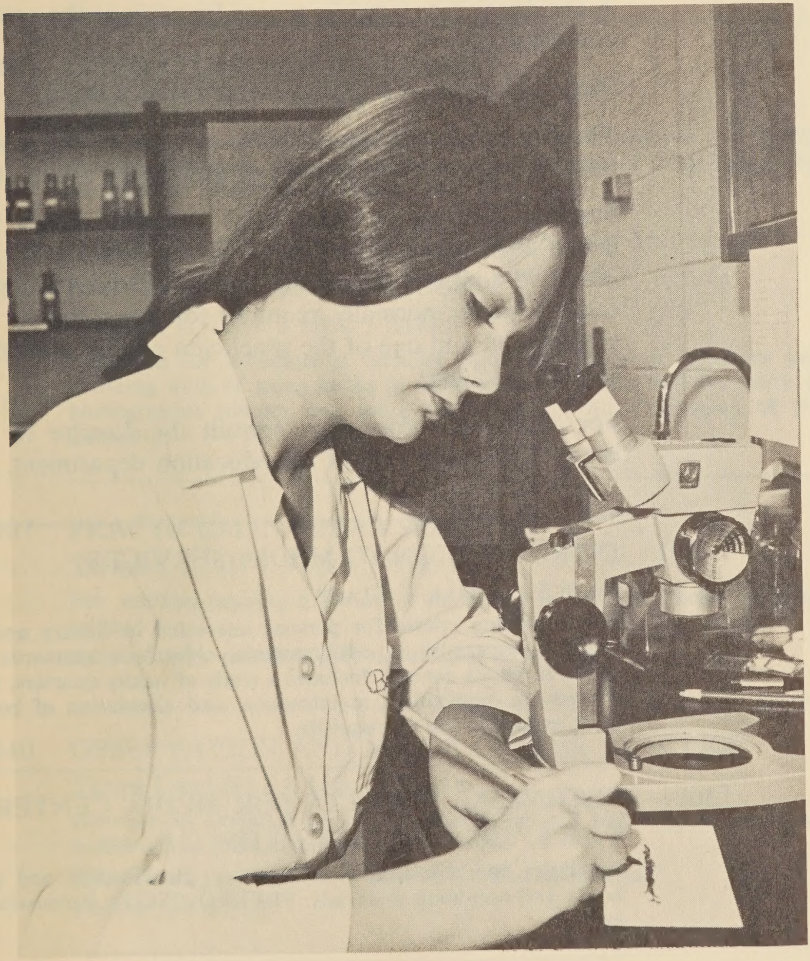
These courses are intended primarily for non-science majors. They will be taught by a team of instructors drawn from the biology, chemistry, and physics departments. Environmental Science 101, 102 will fulfill the Area IV distributed requirements. PREREQUISITE: Environmental Science 101 or a college level physical science course is prerequisite to Environmental Science 102.

Three hours lecture, two hours laboratory a week

450 INTERDISCIPLINARY SENIOR THESIS

Terms I, II, and III / 3 Hrs. / Staff

Designed primarily for students who are pursuing a self-structured major or any student engaged in interdisciplinary study at the advanced level. The project is supervised and evaluated by the student's major advisor and at least one person from another department. Open only to seniors. Students pursuing an honors degree should plan to take Honors 490 instead of Interdisciplinary Thesis 450.



LIBRARY SCIENCE

In conjunction with the education department, eight courses are offered in library science—educational media services. Students interested may select courses as electives, as preprofessional courses, or as preparation for certification as school librarian (associate media coordinator). The courses are cross-listed as library science or education.

The trained librarian has many openings in the new learning-resource and school-media centers. This undergraduate program is designed as preliminary to graduate school and for Class A certification as a public school librarian at the associate media coordinator level.

Students may take as electives any courses listed.

Those interested in librarianship as a career are encouraged to take 301 or any other courses in which they are interested.

Students desiring certification as a public school librarian or media coordinator should take the six courses 301, 302, 303, 304, 305 and 306. In addition, they must take professional education courses normally required for secondary or elementary certification and one of the practicum courses instead of regular student teaching.

For additional information consult the director of Everett Library or the chairman of the education department.

---

301 INTRODUCTION TO MEDIA SERVICES

Term I / 3 Hrs. / Staff

The beginning course for persons interested in library and media professions—especially in developments, objectives, standards and current trends in media centers. Includes a study of media quarters, facilities, and equipment; acquisition, maintenance, and circulation of book and non-book materials. No prerequisite.

---

[302] TECHNICAL SERVICES FOR MEDIA CENTERS

Term I / Offered 1975-76 / 3 Hrs. / Staff

Principles and practices of cataloguing, classification and processing of books and non-book materials. PREREQUISITE: Permission of instructor.

---

303 GENERAL REFERENCE SOURCES IN MEDIA CENTERS

Term III / 3 Hrs. / Staff

Basic reference tools for the media center including study of dictionaries, encyclopedias, handbooks, indexes, bibliographies, serials, biographical sources, atlases and gazetteers.

[304] AUDIO-VISUAL MATERIALS AND METHODS

Term III / Offered 1975-76 / 3 Hrs. / Blount

An introductory course in the selection, utilization, and care of audio-visual and principal non-book materials and equipment.

305 LITERATURE FOR CHILDREN

Terms I and II / 3 Hrs. / Mason, Smith

Book selection and the integration of knowledge of children and books; includes evaluating types of literature, planning ways of using books, and the study of bibliographic sources and tools.

306 BOOKS FOR YOUNG PEOPLE

Terms I, II, III / 3 Hrs. / Staff

Literature for adolescents; includes evaluating types of literature and planning ways of using books in the secondary schools and the study of bibliographic sources and tools. PREREQUISITE: Permission of the instructor.

307 PRACTICUM IN MEDIA SERVICES

Terms I, II, III / 3 Hrs. / Staff

For students desiring a period of internship in a public library or other setting.

Admission by permission of department chairman

440 OBSERVATION AND MEDIA CENTER PRACTICE

Terms I and III / 6 Hrs. / Staff

Involves an extended period of observation and student practice in selected school media centers.

Admission by permission of director of student teaching

Student fee: $40.00

MATHEMATICS

*Professors Fusaro, Oates; Associate Professor Jenkins; Assistant Professors Charlesworth, Lanier.

The department of mathematics presents both the pure and applied aspects of the discipline.

The courses 112, 211 serve as preparation for further work in mathematics and science. The course 105 is appropriate for general education and is suitable for students majoring in the behavioral sciences. The student majoring in mathematics can choose a program that will prepare her to teach at the secondary school level, to go into actuary or computer work, or to go to graduate school.

The department manages a computer center and has direct access to an IBM 370, Model 165 computer. The computer center is equipped with teletypewriters for tape input, an IBM 1050 for card input, and electronic calculators.

Major Mathematics 100, 112, 211, 212, 303, 311, 312, and 12 hours selected from upper level mathematics courses. Students are required to take at least one course from each of the following major fields of mathematics: Algebra (401); Analysis (415, 416); Applied (405, 406, 409); Geometry/Topology (304, 307). Physics 101 and 102 are strongly recommended.

As a part of the major in mathematics, students planning to study for a graduate degree should include in programs Mathematics 307, 401, and 415.

Distributed Requirements All courses except 101 and 103 can be used to satisfy the distributed requirements, Area II; however, 103 does count for three distribution hours if taken with any other mathematics course.

---

100 AN INTRODUCTION TO COMPUTERS AND PROGRAMMING

Terms I and III / 1 Hr. / Fusaro

Tape and card input to the IBM 370; writing and running simple PL/I programs. There are two sections offered each term—one for the first half of the term and one for the second. This course is on a Pass/No Record basis.

---

*On leave, 1974-75

101 AN INTRODUCTION TO MATHEMATICAL ANALYSIS

Term I / 3 Hrs. / Jenkins, Oates

Sets; equations and inequalities; mathematical induction; relations, functions and their graphs; trigonometric functions.

This course is for students who plan to major in mathematics or the natural sciences but who do not have the preparation for Mathematics 112.

102 BUSINESS MATHEMATICS

Term III / 3 Hrs. / Jenkins

A review of basic mathematics followed by the study of the fundamentals of percentage, simple interest, compound interest, and annuities, with applications.

103 MATHEMATICS FOR THE ELEMENTARY TEACHER

Term III / 3 Hrs. / Staff

Designed for early childhood and intermediate teacher certification. Sets and logic; enumeration conventions; the integers; number theory; rational numbers; metric geometry.

105 AN INTRODUCTION TO MODERN MATHEMATICS

Terms I, II, and III / 3 Hrs. / Charlesworth, Fusaro

Statements, connectives, truth-tables and valid arguments; sets and their relation to statements; partitions and counting problems; probability including conditional probability.

112 CALCULUS I

Terms I and III / 3 Hrs. / Charlesworth

Limits and continuity; the derivative and its applications, including curve-sketching and maximum/minimum problems; the law of the mean. PREREQUISITE: Mathematics 101 or its equivalent.

200 COMPUTER PROGRAMMING

Term II / 2 Hrs. / Lanier

Writing and running programs in PL/I. The last week of the course will be spent working with a faculty member on a specific problem. This course is on a Pass/No Record basis. PREREQUISITE: Mathematics 100.

206 STATISTICAL METHODS

Terms I , II, and III / 3 Hrs. / Jenkins

Introduction to the concept of statistical inference with emphasis on applications using the normal, t, chi-square, and F distributions. Primarily for persons concentrating in the behavioral or social sciences. PREREQUISITE: Mathematics 101, 105, or 112.

211, 212 CALCULUS II, III

Terms I and III / 3, 3 Hrs. / Fusaro, Jenkins

The law of the mean; related rates; the definite integral; exponential and logarithmic functions; circular and hyperbolic functions; L'Hospital's rule; formal integration; surfaces and curves; vector functions; partial derivatives. PREREQUISITE: Mathematics 112 or its equivalent.

250 MATHEMATICS PRACTICUM

Terms I, II, III / 3 Hrs. / Staff

A student will work with a local firm under the joint supervision of a representative of the firm and a member of the mathematics department. The work will usually require a background in computing (such as supplied by Mathematics 100) or in elementary statistics (Mathematics 206). This course is on a Pass/No Record basis.

Admission by permission of the chairman

303 LINEAR ALGEBRA AND COORDINATE GEOMETRY

Term III / 3 Hrs. / Charlesworth

Coordinate geometry; vectors and three-dimensional geometry; matrices and determinants; linear transformations. PREREQUISITE: Mathematics 112.

304 COLLEGE GEOMETRY

Term III / 3 Hrs. / Fusaro

Modern approach to the study of Euclidean and non-Euclidean geometries, including incidence and affine geometries; designed especially for students preparing to teach.

[307] INTRODUCTION TO TOPOLOGY

3 Hrs. / Fusaro

Introductory study of point-set topology, including open sets, continuity, topological spaces, homeomorphism, connectedness, and compactness. PREREQUISITE: Mathematics 211.

311, 312 MULTIVARIATE CALCULUS WITH DIFFERENTIAL EQUATIONS I, II

311, Term III; 312, Term I / 3, 3 Hrs. / Fusaro

Multiple integrals; series; tangent fields; series solutions of equations; exact and first order linear equations; homogeneous and nonhomogeneous linear equations with constant coefficients; systems of equations. PREREQUISITE: Mathematics 212.

401 AN INTRODUCTION TO MODERN ALGEBRA

Term I / 3 Hrs. / Charlesworth

Presentation of the theory of integral domains, fields, groups, rings, vector spaces, matrices, and other selected topics. PREREQUISITE: Mathematics 212.

[405] INTRODUCTION TO PROBABILITY AND MATHEMATICAL STATISTICS

Term III / 3 Hrs. / Jenkins

Introductory study of probability as a mathematical system; random variables and distribution functions; mathematical models; testing hypotheses; estimation of parameters. PREREQUISITE: Mathematics 212.

406 STATISTICAL INFERENCE

Term II / 3 Hrs. / Jenkins

Study of the relation of sample to population with the consideration of statistical problems such as testing of hypotheses, estimation, and experimental design. PREREQUISITE: Mathematics 212.

409 NUMERICAL ANALYSIS

Term III / 3 Hrs. / Fusaro

Roots of algebraic and transcendental equations; the difference calculus and interpolation; matrix inversion and eigen-values; initial-value problems for differential equations. PREREQUISITE: Mathematics 312; may be taken concurrently.

[415] INTRODUCTION TO REAL VARIABLE THEORY

3 Hrs. / Fusaro

The real numbers; set theory; metric spaces; Euclidean spaces; uniform continuity; series of functions; the Riemann-Stieltjes integral. PREREQUISITE: Mathematics 312.

[416] INTRODUCTION TO COMPLEX ANALYSIS

Term II / 3 Hrs. / Fusaro

Algebra and geometry of complex numbers; analytic functions; contour integrals; Taylor and Laurent series; conformal mappings. PREREQUISITE: Mathematics 312; may be taken concurrently.

[425] MATHEMATICS SEMINAR

3 Hrs. / Staff

Seminar in advanced topics of mathematics.
Open to seniors in the mathematics department with permission of the instructor. PREREQUISITE: Mathematics 312.

MUSIC

Professor Stegner (piano); Professor May (voice); Associate Professor Eagle; Associate Professor Lammers (piano); Assistant Professor Hargett (piano); Assistant Professor Sica (violin-viola); Mrs. Carolyn Darr (choral work).

Affiliated instructors: Mrs. Anita Dixon Bultmann (piano); Miss Jane Lynch (piano); Willard Ray (cello); Robert Stigall (organ); Mrs. Elizabeth Roth (harp); Miss Laura Schneider (French horn); James Ross (oboe).

The music department puts emphasis upon the individual purpose of each student whether she is pursuing music as a professional career, developing a special ability, studying to become a teacher, or is interested in music as a part of her liberal education. Small classes allow personal attention, and students receive private instruction under teachers who are performing artists.* Ensemble work is stressed through participation in the musical organizations of the college. The more advanced students have many opportunities for group and solo performances in the city of Charlotte through local organizations such as the Charlotte Opera Association, the Oratorio Singers, the Charlotte Symphony Orchestra, and church choirs.

Major Bachelor of Arts

Forty credit hours in music including Music 100, 103, 104, 113, 114, 203, 204, 213, 214, 307, 308, 407; Physics 103; at least two years of ensemble work** (choir, chorus, and/or instrumental ensemble); attendance at public recitals of students and faculty; and at least one credit hour of private training in applied music for four terms. At least 18 of the 40 hours shall be in courses numbered 300 and above. The following fields can be elected for special emphasis under this degree: general music, applied music, history and literature, sacred music, and theory. The student may also elect to work towards equivalency certification in Music Therapy under this plan. See *Equivalency Certification in Music Therapy* at end of this departmental section.

---

*Arrangements can be made for study of any orchestral instrument not listed in this section.

**Credit hours gained in courses marked with an asterisk may not be counted toward the 40 hours music concentration or the 114 hours for graduation under the B.A. program in music.

Major Bachelor of Music

Candidates are required to fulfill the same distributed requirements as those required of all liberal arts candidates. Also required are Music 100, 103, 104, 113, 114, 203, 204, 213, 214, 307, 308, 320, 407; Physics 103; six to eight credit hours ensemble work (choir, chorus and/or instrumental ensemble); attendance at public recitals of students and faculty; and the following:

1. In Applied Music: Thirty-eight additional hours of music apportioned as follows: 21 to 24 hours in a chosen instrument, half-recital in junior year, Music 400, 413-414 (piano majors only), three to six additional hours in music courses, and four additional hours (in four terms) in other applied music. At the end of the sophomore year a qualifying examination will be given in the major applied area.

2. In Music Education: Music 75, 95, 321-322, 415, 416, and no less than 14 credit hours in a major performance area and four credit hours in a minor performance area. (See music bulletin for musical and technical standards in performance areas.)

3. In Piano Pedagogy: Fifteen to 17 credit hours in piano (including Music 95, Functional Piano Class); half-recital; Music 313-314, 413-414, 417-418; at least nine additional hours in music; Psychology 201, Education 202, and Psychology 309 or 319.

Distributed Requirements

Distributed Requirement, Area VI, can be satisfied by Music 100, 103, 207, 315, 316, 317.

---

100 INTRODUCTION TO MUSIC

Terms I, II, III / 3 Hrs. / Lammers, Stegner

Study of the basic materials of music, survey of the important composers, and examination of selected masterpieces with reference to cultural background; technical knowledge of music not necessary for enrollment.

---

103 BEGINNING THEORY AND COMPOSITION I

Term I / 3 Hrs. / Eagle

Fundamentals of notation, tonality, scales, and modes, interval and triadic structure. Elementary characteristics of melodic form. Four-part writing in a homophonic style using triadic structures. Analysis of chorale style involving triads, seventh chords, modulation, nonharmonic tones.

---

104 BEGINNING THEORY AND COMPOSITION II

Term III / 3 Hrs. / Eagle

Part writing in a homophonic style using triadic structures, seventh chords, nonharmonic tones, modulation, secondary chords, and other chromatic harmonies. Introduction to and analysis of smaller forms. Keyboard exercises. PREREQUISITE: Music 103.

113, 114 ELEMENTARY SIGHTSINGING AND EAR-TRAINING

113, Term I; 114, Term III / 1, 1 Hrs. / Eagle

Study and application of techniques of music reading and identification of sound. Audition required. Grading is Pass/No Record for all students enrolled; exemption at any level.

203 INTERMEDIATE THEORY AND COMPOSITION I

Term I / 3 Hrs. / Lammers

Two and three-voiced writing in the contrapuntal and harmonic style. Study of basic contrapuntal forms. Further study and review of non-dominant seventh chords and chromatic harmony. Analysis, written exercises, and keyboard exercises. PREREQUISITE: Music 104.

204 INTERMEDIATE THEORY AND COMPOSITION II

Term III / 3 Hrs. / Lammers

A study of basic homophonic forms. Introduction to compositional techniques of the 20th century and possibilities of melodic, harmonic, and tonal expansion. Analysis and written exercises. PREREQUISITE: Music 203.

207 MUSIC IN AMERICA

Term III / Alternate years; offered 1974-75 / 3 Hrs. / Lammers

A survey of music and musical practices in the United States from colonial times to the present, with particular emphasis on those inherent qualities which have permeated America's serious and popular music over the past three centuries. No musical background necessary.

213, 214 INTERMEDIATE SIGHTSINGING AND EAR-TRAINING

213, Term I; 214, Term III / 1, 1 Hrs. /Lammers

Study and application of techniques of music reading and identification of sound. Audition required. Grading is Pass/No Record for all students enrolled; exemption at any level.

230 MUSIC METHODS FOR ELEMENTARY TEACHERS

Term I / 2 Hrs. / Sica

Materials and methods of teaching music in the elementary school with emphasis on techniques of teaching music fundamentals, supervising performing activities, and helping the elementary child to become an intelligent listener. PREREQUISITE: Music 100 and some basic knowledge of the fundamentals of music theory and elementary piano playing demonstrated on examination, or by one term of private piano study.

307 MUSIC FROM THE ANCIENT GREEKS THROUGH THE BAROQUE ERA

Term I / 3 Hrs. / Stegner

Study of the broad aspects of music in Western civilization from approximately 500 B.C. through the Baroque era; emphasis on representative composers and forms. PREREQUISITE: Music 100.

308 MUSIC IN THE CLASSICAL AND ROMANTIC ERAS

Term III and Queens Summer European Program / 3 Hrs. / Stegner

Study of the newly perfected forms of orchestral, chamber, and keyboard music as found in the works of Haydn, Mozart, and the earlier Beethoven; and of the progression of the romantic element in music of the 19th century and composers involved. PREREQUISITE: Music 100.

313-314 ELEMENTARY PIANO PEDAGOGY AND MATERIALS

313, Term I; 314, Term III / Alternate years; offered 1974-75 / 3-3 Hrs. / Hargett

Topics in methods, piano-readiness, musicianship, theory, technique, and interpretation as they pertain to the first four years of piano study; extensive survey and evaluation of pedagogical materials. Observation of piano teachers and supervised student teaching in piano at the elementary level. PREREQUISITE: Music 95 or permission of instructor.

315 MUSIC LITERATURE–CONGREGATIONS AND CHOIR

Term III / Alternate years; offered 1974-75 / 3 Hrs. / Darr

Study of all forms of church music; hymns, motets, anthems, responses, cantatas and oratorios; valuable to students who may be interested in any phase of church work.

[316] CHURCH LITURGIES AND MUSIC

Term III / Alternate years; offered 1975-76 / 3 Hrs. / Darr

Background and review of the liturgies and music of all branches of the Christian church beginning with the Hebrews and continuing with the Greek, Roman, Anglican, Lutheran, and Reformed faiths.

[317] THE ORGAN IN CHURCH SERVICE

Term III / Alternate years; offered 1975-76 / 3 Hrs. / Staff

Instruction in church service playing with emphasis in repertoire, hymn playing, choir accompaniment, modulation, improvisation, and discussion of electronic organs in use today.

319 STUDY OF A COMPOSER: BEETHOVEN

Term II / 3 Hrs. / Stegner

Each term that this course is offered one composer will be selected for an in-depth examination of his life, works, style, and influence on his contemporaries and followers: 1974-75, Beethoven. PREREQUISITE: Music 100. May be taken more than once with different composers.

320 SEMINAR IN APPLIED ANALYSIS

Term I / 3 Hrs. / Lammers

Independent study and analysis of compositional techniques and formal styles of compositions studied in music literature and applied music classes. Class seminar meetings. PREREQUISITE: Music 204.

321, 322 METHODS FOR PUBLIC SCHOOL MUSIC TEACHERS

321, Term I; 322, Term III / 3, 3 Hrs. / Sica

Materials, theories, and techniques involved in teaching of all areas of music in the elementary, junior and senior high school; trips made to observe local school groups; instruments used in the general music program; class instruction in strings, woodwinds, brass, and percussion.

400 SENIOR RECITAL

Terms I, II, III / 1 Hr. / Staff

The preparation and performance of a full public solo recital in the major instrument. Grading is Pass/No Record for all students enrolled.

407 MUSIC LITERATURE OF THE TWENTIETH CENTURY

Term I / 3 Hrs. / Lammers

Study of the development of music during the 20th century beginning with the works of Debussy and Mahler; aspects, means of expression, and present day tendencies examined and discussed through the use of contemporary masterpieces. PREREQUISITE: Music 100.

408 COMPOSITION

Term II / 3 Hrs. / Sica

Creative expression in various musical media based on a study of traditional and 20th century forms and techniques of composition; suitable compositions performed in workshop recitals. Admission by permission of the instructor.

[413-414] ADVANCED PIANO PEDAGOGY AND LITERATURE

413, Term I; 414, Term III / Alternate years; offered 1975-76 / 2-2 HRS. / HARGETT

For use in teaching the more advanced student; comprehensive survey of the literature of the piano, with discussion of musicianship; technique, theory, and interpretation. Students concentrating in piano pedagogy should take Music 417-418 concurrently.

415 CHORAL CONDUCTING AND ARRANGING

Term I / 3 HRS. / DARR

Basic conducting techniques and choral arranging applied to the specific task of producing music with a choir. PREREQUISITE: At least one year of choir or chorus experience, and Music 204 or permission of the instructor.

416 INSTRUMENTAL CONDUCTING AND ARRANGING

Term III / 3 HRS. / SICA

Techniques of score reading and orchestral conducting as developed from a study and understanding of fundamentals of orchestration; laboratory experience in conducting. PREREQUISITE: Music 204 or permission of the instructor.

[417-418] SUPERVISED STUDENT TEACHING IN PIANO

417, Term I; 418, Term III / Alternate years; offered 1975-76 / 1-1 HRS. / HARGETT

PHILOSOPHY AND RELIGION

Assistant Professor Crosthwaite; Staff

Under the department of Philosophy and Religion, a student may choose to major in either Philosophy (A) or Religion (B). Course descriptions for Religion begin on page 130.

A. PHILOSOPHY

Students in the department are trained to look upon life critically and sensitively through the process of reflective thinking. Philosophy touches many areas of the liberal arts; hence, its program is conceived broadly to provide links with the various elements of the general educaton program. A major in philosophy provides a focus on the main ideas that have shaped Western and Oriental culture. Study may lead primarily to graduate work; however, it also provides a background applicable to a number of related practical fields such as literature and religion.

Philosophy Major

Philosophy 203; 205; 301; 302; 305; 310; and nine hours of other work in philosophy. Six hours of pertinent course work from another department is to be chosen in consultation with the major advisor.

SPECIAL PROGRAMS

Nursing Programs

Queens offers a variety of programs for students interested in nursing.

Cooperative Program with Presbyterian Hospital School of Nursing

The Presbyterian Hospital School of Nursing in Charlotte and Queens College have a cooperative arrangement under which the college provides basic academic instruction to students enrolled in the hospital's three-year Diploma of Nursing program. Students in this program live at the hospital nursing school and take a full academic load at Queens during their first year. College credit hours earned at Queens in this program are transferable. Participants in this program become Registered Nurses when graduated from the Presbyterian Hospital School of Nursing. Interested applicants should write the Director of Nursing Education, Presbyterian Hospital School of Nursing, P. O. Box 10157, Charlotte, North Carolina 28201.

Two-Year Pre-Nursing Curriculum

Students wishing to begin a course of study for becoming a registered nurse or for receiving a baccalaureate degree in nursing through the liberal arts program offered at Queens may enroll in the two-year pre-nursing curriculum described on page 31. This program will entail transfer to a nursing school of the student's choice after completion of the two-year Queens program.

Bachelor of Science Degree in Nursing

Queens also offers a program leading to a bachelor of science degree in nursing for students who have already received professional training as nurses. This program is designed to meet the needs of trained nurses who desire further education and to satisfy the demands of hospital administrators who employ nurses with baccalaureate degrees.

As a prerequisite for admission to this program the applicant must have graduated as a Registered Nurse from a fully accredited school of nursing, such as the Presbyterian Hospital School of Nursing in Charlotte, or as an Associate in Nursing from a fully accredited junior college, such as Central Piedmont Community College, Charlotte.

Graduation requirements for Queens' bachelor of science degree in nursing are a minimum of 114 credit hours in academic and professional courses with a cumulative quality point average of 1.000 in all work at Queens and the professional school; and two non-academic credit hours in physical education. The candidate must complete at least 27 credit hours of academic work at Queens and must spend at Queens or in a Queens approved program the last year of training (full-time or part-time) prior to the conferring of the degree. The educational program is described on page 28.

Students interested in this program should submit an application to Queens' director of admissions and include a transcript of all earned post-secondary credits so that the transfer credits applicable to the program may be determined as well as the courses needed to complete degree requirements.

Washington Semester

Through a cooperative arrangement with the American University, two Queens students annually may spend one term in Washington, D. C., for a study of American National Government in Action. The study is carried out through a seminar on Government in Action, an individual research project, and regular courses at the American University. Applicants must have completed Political Science 201 and have a quality point average of 1.600 or above. Application should be made to the chairman of the department of political science.

Pawleys Island Marine Biology Program

The department of biology offers a four-week summer session in marine biology at Pawleys Island, South Carolina. In addition to the usual laboratory facilities and equipment, the college maintains a 28-foot boat for offshore collecting. Advanced students may undertake independent studies in the marine field.

On-Campus Summer Programs

Queens operates a May Term and a summer program including liberal arts offerings to meet experienced teachers' need for certification renewal. Information on summer programs may be obtained from the Director of the Summer Session.

Continuing Education

Queens College sponsors a program of continuing education recognizing that opportunities in higher education should be available to members of the community who wish to continue study or to develop particular interests. There are certification renewal courses for teachers, general interest courses, business and insurance seminars, and a special New Horizons Seminar for women.

Charlotte Area Educational Consortium

Queens participates in the Charlotte Area Educational Consortium, which includes 10 public and private colleges and universities in and near Charlotte. Through the consortium the resources of all participating institutions are available to Queens students who, if qualified, may enroll at one of the other colleges in any course not offered at Queens and receive full credit toward the Queens degree without the payment of additional fees.

Exchange Program with Davidson College

Queens College participates in a cooperative program of junior year exchange with Davidson College. Students at either college may elect to take the junior year at the other upon the recommendation of the college where the student is a degree candidate and the concurrence of the college where the student plans to study during the junior year. Recommendations are based on the demonstrated academic ability of the applicant, the approval of the proposed course of study, and the availability of space in particular courses or departments.

Students participating in the exchange are considered degree candidates at the college of original enrollment and are expected to return to that campus at the conclusion of the year. While participating in the exchange, students enjoy all the privileges and assume all the responsibilities of regular students at the host institution.

Internships

Queens College affirms its support of properly planned and supervised internships as useful and desirable educational experiences for its students. The student is afforded the opportunity to enroll in practicum courses listed under the departmental courses of instruction and to earn a maximum of 9 hours credit toward graduation requirements through internships. The college defines *internships* as out-of-class work experiences which use skills and theories learned in classroom settings.

To be eligible for internships students should have the academic training necessary as a basis for such experiences. Generally, internships are restricted to upperclassmen; however, freshmen and sophomores with unusual backgrounds in or strong motivation for such work experiences are not excluded from participating in internships.

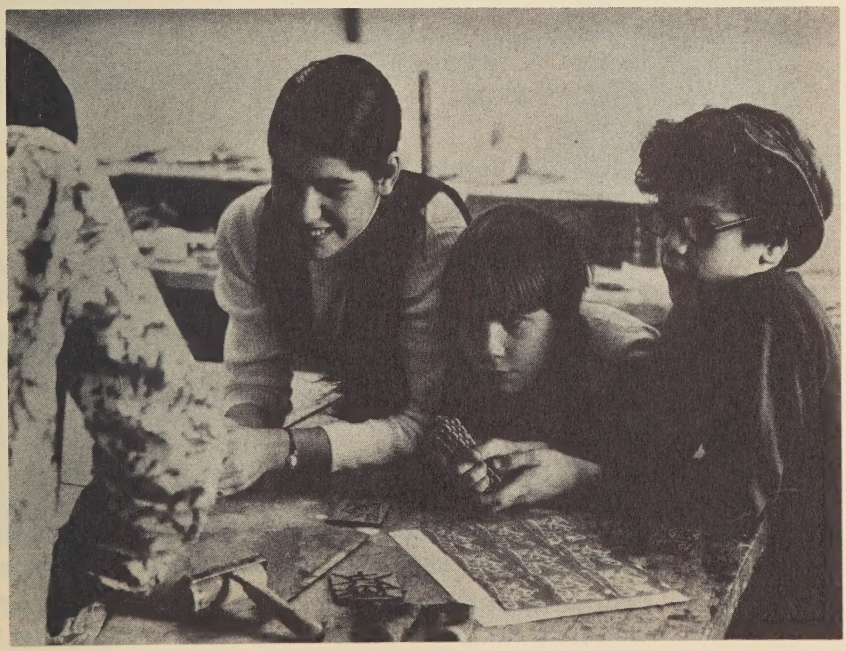
The student and a faculty internship advisor plan an internship. The advisor reports a grade and serves as a contact person on-campus for the intern and the project supervisor. Off-campus

arrangements for internships are the responsibility of the student and the faculty internship advisor.

The student and faculty advisor are responsible for following the college internship guidelines that are available in the office of the dean of the college.

Government Internship Program

Queens College students may choose to participate in a government internship program designed to provide an understanding of practical politics as well as an introduction to government employment. The Queens program is based upon cooperation with existing programs sponsored by or with local, state, or national governmental institutions. There are also major efforts made to arrange individual internships outside these programs that may be tailored to the special needs or interests of a particular student. Some of the internship opportunities involve stipends which may be used to help defray the costs of the internship to the student.



Students who enroll for internships should have a sound background in the social sciences as well as upperclass standing. Students who do not meet these qualifications are not prohibited from participating, but the type of internship for which they may qualify may be circumscribed.

Queens European Program

Queens periodically offers a program of summer study and travel in Europe in cooperation with the Institute of European Studies. Enrollment is limited to 30 students with averages of C or higher. Participants attend informal seminars during Term III, prior to the program, and are expected to have had prerequisite courses in art, music and history.

The program starts with an extended study tour of selected European cities and concentrates on five weeks of formal college credit work at the Institute of European Studies in Vienna, Austria. It concludes with a short period of travel before students return to the United States. Participants may take a maximum of six credit hours in Vienna in music, art, and history. In addition, beginning conversational German for no credit is required of all students, except those with a prior knowledge of German who will be put in an advanced no-credit German class.

Inquiries regarding the program should be addressed to Dr. George A. Stegner, Chairman, Queens European Program, Queens College.

International Education

During the regular academic year, qualified students with at least a C average may study abroad under selected programs. The Faculty Committee on International Education, in cooperation with the dean of the college and the major advisor, must give prior approval to each applicant and each program.

The one-term program of the Experiment in International Living permits a student to earn as many as nine credit hours in various European countries, India, or Ghana; or as many as 12 credit hours if an independent study project is completed.

Queens also participates in the Association of United Colleges for Foreign Exchange and Study which provides Junior Year Programs in Strasbourg, France; Heidelberg, Germany; Lancaster, England; and at the London School of Economics.

(For further information concerning study abroad, refer to the section on the major in European studies listed under "Courses of Instruction.")

A separate fee schedule for the non-college applied music program may be obtained from the department of music.

Since affiliated instructors are not full-time members of the music faculty, tuition for private study with them for either Term I or Term III is charged at the rate of $60.00 for one weekly, half-hour private music lesson or $100.00 for one hour or two half-hour private music lessons weekly. Tuition for private study with adjunct professors in Term II is charged at the rate of $5.00 per half-hour with 12 half-hour equivalents being required during Term II for one hour of college credit.

REGULATIONS REGARDING PAYMENTS

Upon signing the application for admission, the parent or guardian, or the applicant if not a dependent, accepts as binding and contractual all fees and regulations set forth in the catalogue.

Payment for Academic Year

All fees for the academic year are charged at the time of registration at the beginning of the first term. Payments must be made for the full year or alternate arrangements made with the treasurer to pay the account according to a deferred payment schedule.

Fees for Attending One Term

Students registering for only Term I or III are charged fees for that term only. Term II fees are included in the fees for Term I or Term III.

General Information Concerning Fees

A student is not permitted to attend classes or take final examinations until satisfactory arrangements have been made to meet all financial obligations. Diplomas, certificates, and transcripts are granted only when the student's accounts have been paid in full. Where a note is proffered, it is accepted with the understanding that the account is not considered settled until the note is paid.

No discount or scholarship award may be applied against the $150 initial deposit.

Students who withdraw from the college during the academic year on their own initiative will be charged for the full term during which they withdraw. Students suspended by the college for other than academic reasons are responsible for paying fees for the full year. Students who withdraw from college during the academic year as a result of illness will have their fees prorated as of the date of withdrawal provided their physicians recommend withdrawal.

All payments and communications concerning business transactions should be addressed to the treasurer, and checks should be made payable to Queens College.

Deferred Payment Schedule

The college offers the following deferred payment schedule for students registered for 1974-75:

Dates Due	Resident Student	Commuting Student

Board

Payments for meals are not included in the deferred payment schedule. Meals will be paid for at registration each term when the meal plan is selected.

Insured Tuition Payment Plan

Queens participates in the program of the Insured Tuition Payment Plan of the Richard C. Knight Insurance Agency, Inc., 6 St. James Avenue, Boston, Massachusetts 02116 and The Tuition Plan, Inc., Concord, New Hampshire 03310. These organizations specialize in financing education so that parents who wish may meet academic expenses through monthly payments.

OTHER EXPENSES

Books and Miscellaneous The cost of books and supplies varies with the courses taken, but the average expense is $100 a year. A substantial amount should be on hand at registration.

Non-College Non-college expenses such as travel, clothing, entertainment, and incidentals vary according to individual student needs. Students entering social and honorary sororities incur additional costs for initiation, dues, and special assessments.

Laundry Laundry is not included in the general fee. The college offers facilities for handling laundry efficiently and economically at the expense of the student. Student linen service is available for anyone wishing service deliveries to the dormitories once a week. Coin operated washing machines and driers are provided for students to do their own laundry.

Student Property The college exercises every precaution to protect student property but it is not responsible for any loss which may occur.

Health Service The college maintains an infirmary where graduate nurses are on duty and where the college physician holds clinics twice a week. Fees for special visits and consultation outside of the clinic hours, as well as the cost of special medicine, are paid by the students. If the physician recommends hospitalization, all expenses are paid by the student.

FINANCIAL AID

Queens provides financial assistance to qualified students on the basis of need and of merit. Funds for Queens financial aid programs come from federal and state governments, college endowment, and private contributions. Every effort is made to assist as many students as funds permit; therefore, no qualified student who desires to attend the college should hesitate to apply because of need.

Federal Programs

Basic Educational Opportunity Grants (BEOG) are available through a new federal program created by the Higher Education Amendments Act of 1972. It authorizes grants up to $1,400 (less family contribution) to assist all eligible students to meet educational costs. The family contribution expected for a particular student is determined by an evaluation process administered nationally by the American College Testing program (ACT) and based on a confidential statement of family financial assets and income.

To be considered for a BEOG a student must submit a confidential family financial statement to Basic Grants, American College Testing Program, Box B, Iowa City, Iowa 52240, on forms provided. ACT calculates and notifies the applicant of the expected family contribution. The applicant then sends this notification to Queens' Director of Financial Aid who will determine the amount of BEOG support for which the student is eligible, considering federal regulations and available appropriations.

Basic Education Opportunity Grants were available for the first time in 1973-74. Because of limited funding only needy full-time students entering higher education for the first time in 1973-74 were eligible to apply.

The United States Congress will probably increase the funds available for BEOG in 1974-75, thereby permitting more students to receive more aid through this program. It is anticipated that BEOG will be available to freshmen and sophomores. A student applying for admission to Queens in 1974-75 who will need financial aid should secure an evaluation of the expected family contribution from ACT early in the application process so that this information may be available.

Supplemental Educational Opportunity Grants (SEOG) are available, on an annual basis, to undergraduate students with exceptional need. These grants range from $200 to $1,500 and may be renewed from year to year but may not exceed $4,000 during four years. Grants in any one year may not exceed half of the recipient's total assistance program.

The College Work Study (CWS) program assists qualified students with demonstrated need to meet educational expenses through employment on campus during the academic year at a specified hourly rate.

The National Direct Student Loan (NDSL) program permits students with established need to borrow as much as $2,500 during their freshman and sophomore years, and as much as $5,000 during their undergraduate programs. These loans bear a three percent annual interest rate. Repayment begins nine months after the borrower ceases to be a full-time student and may extend over a period of 10 years. If the borrower enters certain public-service occupations, the loan may be forgiven.

The amount of funds available to Queens students under SEOG, CWS, and NDSL programs is determined by allocations made to the college each year by the Department of Health, Education and Welfare.

The Guaranteed Loan program permits students upon recommendation of the college, to borrow from a bank or other financial institution—with a federal government guarantee of repayment—as much as $2,500 a year with a $7,500 maximum for undergraduates. Terms for these loans and of guaranteed interest arrangements may be obtained from participating banks, or agencies in the state where the student resides.

North Carolina Programs

The North Carolina Scholarship Program is provided to Queens College by an act of the North Carolina General Assembly. Scholarships are available to full-time undergraduate students who are legal residents of North Carolina. This scholarship fund assists qualified students who demonstrate need.

North Carolina offers two loan programs through College Foundations, Inc. of Raleigh, North Carolina.

The North Carolina Insured Student Loan Program permits North Carolinians enrolled as full-time students at Queens to

borrow through the College Foundation, Inc., on the basis of a needs analysis, as much as $2,500 per academic year for an aggregate of $10,000 (including undergraduate and graduate study) at seven percent annual interest. Loans are insured by the North Carolina State Education Assistance Authority or the United States Office of Education. Under certain conditions the Office of Education pays the seven percent annual interest on these loans during the in-school and grace periods.

The James E. and Mary Z. Bryan Foundation Student Loan Plan permits North Carolinians enrolled in full-time undergraduate programs at Queens to borrow, through the College Foundation, Inc., as much as $1,500 per school year for a four-year total of $7,500. The interest rate is one percent annually during the in-school and grace periods and six percent annually during the repayment period. Students may apply for a Bryan Foundation Loan without submitting a parents' confidential statement. Application forms may be obtained from the Queens' director of financial aid.

Queens Programs

Queens supports a number of scholarship programs with funds provided by interested individuals and groups. Some of these scholarships are awarded on the basis of need, others on the basis of merit.

College Scholarships are available to degree candidates with demonstrated need. The amount offered is determined by the applicant's need and overall record.

Mecklenburg Challenge Grants ranging from $500 to $1,000 each are offered annually as a challenge to Mecklenburg County students who otherwise would not attend college.

Queens Scholarships are awarded annually to approximately 20 of the most outstanding applicants admitted to the freshman class. Recipients are selected on the basis of academic achievement, character, and leadership potential. These scholarships range from $100 token awards to a maximum indicated by need. Recipients are chosen by the faculty Honors Committee and an admissions counselor.

Departmental Scholarships are available to a limited number of freshmen and upperclassmen with outstanding achievement in specialized areas. Recipients are chosen by the Student Qualifi-

cation Committee on the recommendation of the departments concerned. The recommendations are based on the applicant's record and promise, and the amount received is determined by the student's qualifications. These scholarships are currently available in the departments of biology, chemistry, and music.

Carol G. Belk Scholarship Awards of $1,000 each are available annually to 10 outstanding new students from North Carolina. Recipients are chosen on the basis of their leadership records in school and community, academic ability, and potential for continuing leadership at Queens. Awards are renewable.

South Carolina Scholarship Awards of $1,000 each are available annually to 10 outstanding new students from South Carolina. Recipients are chosen on the basis of their leadership records in school and community, academic ability, and potential for continuing leadership at Queens. Awards are renewable.

Dana Scholarships are awarded annually to approximately 15 students in each of the sophomore, junior, and senior classes. The student must maintain outstanding records for scholarship and leadership. These scholarships range from a $100 token award to a maximum indicated by need. Recipients are chosen by the faculty Honors Committee.

National Merit Scholarships are offered each year to National Merit finalists who desire to attend Queens.

Tuition Remission in the amount of $350 annually is available to daughters of ministers of the Presbyterian Church, U. S., enrolled as full-time students at Queens.

Music Education Scholarships are offered each year by the Queens College Student Chapter of the Music Educators National Conference. Recipients are chosen by the music education staff and a representative of the student chapter of MENC. Awards are made on the basis of the student's demonstrated ability and seriousness of purpose in pursuing a career in music education.

Financial Aid Policies

To be eligible for financial aid from Queens under any of the programs described, an applicant must have been admitted to Queens as a degree candidate and, if an upperclassman, must be in good academic standing. Students whose averages result

in academic probation at the end of the college year will be ineligible to receive financial aid for the coming year.

In evaluating an application for financial aid, Queens uses the following criteria where relevant:

1. the applicant's demonstrated ability and seriousness of purpose,
2. intention to graduate from Queens, and
3. financial need as determined by the College Scholarship Service.

The aid offered a particular student is determined by funds available each year. In offering aid on the basis of need, Queens generally combines funds from several programs including grants, loans, and work-study opportunities.

Students receiving aid under certain programs are expected to assume weekly work assignments at the college. Assignments are determined by the amount of aid received and the student's particular interests and skills.

Resident students who receive aid because of financial need must receive permission from the director of financial aid to keep automobiles on campus while attending Queens.

Queens reserves the right to review and modify an offer of financial aid should the recipient receive aid from other sources after Queens' program has been offered.

Most financial aid programs are renewable throughout undergraduate years if the recipient demonstrates satisfactory progress toward graduation, but renewal of aid is not automatic. Rising sophomores, juniors, and seniors must reapply for assistance each year. The amount offered in grants, loans, and work-study funds also may vary from year to year.

Financial aid recipients who withdraw during the school year will have their aid prorated according to the regulations governing withdrawal.

Application Procedures

Communications about all financial aid programs available to Queens students should be addressed to the Director of Financial Aid, Queens College, Charlotte, North Carolina 28274. (704/332-7121) To apply for financial assistance students must complete and submit two application forms:

1. The Queens College Application for Financial Aid to be submitted to the Director of Financial Aid at Queens.
2. The Parents Confidential Statement (PCS) to be submitted to the College Scholarship Service, P. O. Box 176, Princeton, New Jersey 08540.

All forms are available from Queens' Office of Financial Aid. The Parents Confidential Statement form and the BEOG application form may also be obtained from high school guidance counselors.

Beginning with incoming freshmen in 1973-74, all new students applying for financial aid on the basis of need are encouraged to seek a Basic Educational Opportunity Grant.

Applications for financial aid for 1975-76 should be submitted by April 1, 1975 by both entering and returning students. Notification of action by the college will be sent after Queens receives an evaluation of the applicant's need from the College Scholarship Service.
